

# On Hegel

**David Kolb**

## On Hegel:

**On Hegel** Alison Leigh Brown, 2001 This brief text assists students in understanding Hegel's philosophy and thinking so they can more fully engage in useful intelligent class dialogue and improve their understanding of course content Part of the Wadsworth Notes Series which will eventually consist of approximately 100 titles each focusing on a single thinker from ancient times to the present ON HEGEL is written by a philosopher deeply versed in the philosophy of this key thinker Like other books in the series this concise book offers sufficient insight into the thinking of a notable philosopher better enabling students to engage in reading and to discuss the material in class and on paper *On Hegel* George L. Kline, 2015-07-31 Fifteen important papers about Hegel covering forty five years of work by one of America's most prominent Hegel scholars 1 What Marx Could and Should Have Learned from Hegel 1974 2 Hegel and the Marxist Leninist Critique of Religion and Reply to Commentators 1970 3 Present Past and Future in the Writings of Alexander Herzen 1990 4 The Use and Abuse of Hegel by Nietzsche and Marx 1989 5 Hegel and Solovyov 1974 6 The Existentialist Rediscovery of Hegel and Marx 1971 7 Concept and Concrescence An Essay in Hegelian Whiteheadian Ontology 1986 8 Some Recent Reinterpretations of Hegel's Philosophy 1964 9 Gustav G Shpet as Interpreter of Hegel 1999 10 The Hegelian Roots of S L Frank's Ethics and Social Philosophy 1994 11 Lukács's Use and Abuse of Hegel and Marx 1987 12 Pierre Macherey's Hegel ou Spinoza 1990 13 The Dialectic of Action and Passion in Hegel's Phenomenology of Spirit 1970 14 Life as Ontological Category A Whiteheadian Note on Hegel 1980 15 Shpet as Translator of Hegel's Ph nomenologie des Geistes 2009 **Essays on Hegel's Philosophy of Subjective Spirit** David S. Stern, 2012-12-27 The first English language collection devoted to Hegel's Philosophy of Subjective Spirit Although Hegel considered his philosophy of subjective spirit to be of particular importance it has been the focus of little present day scholarship particularly in English Recent editorial work associated with the publication of a new edition of Hegel's *Gesammelte Werke* and the discovery and translation of a transcript of one of his lecture courses on the topic however have set the stage for a fresh encounter with this fascinating and wide ranging component of his thought Taking up questions central to the philosophy of mind and body and to the philosophy of psychology the Philosophy of Subjective Spirit includes discussions of feelings and emotions consciousness habit and free will and rationality as well as madness dreams and the paranormal Situating Hegel's philosophy on the topic in relation to the rest of his work to his contemporaries and to current philosophy of mind and psychology this volume demonstrates its richness as a focus of study and paves the way for a new direction in Hegel scholarship *On Hegel* Karin de Boer, 2010-07-07 Focusing on the Science of Logic this wide ranging and innovative reading exposes the force as well as the limit of Hegel's philosophy Drawing on Hegel's early account of tragic conflicts De Boer brings into play a form of negativity that challenges the optimism inherent in modernity and Hegelian dialectics alike *Leo Strauss on Hegel* Leo Strauss, 2019-08-05 In the winter of 1965 Leo Strauss taught a seminar on Hegel at the University of Chicago While Strauss neither considered himself a Hegelian nor wrote about Hegel at

any length his writings contain intriguing references to the philosopher particularly in connection with his studies of Hobbes in his debate in *On Tyranny* with Alexandre Kojève and in his account of the three waves of modern political philosophy. Leo Strauss on Hegel reconstructs Strauss's seminar on Hegel supplemented by passages from an earlier version of the seminar from which only fragments of a transcript remain. Strauss focused his seminar on the lectures collected in *The Philosophy of History* which he considered more accessible than Hegel's written works. In his own lectures on Hegel Strauss continues his project of demonstrating how modern philosophers related to ancient thought and explores the development and weaknesses of modern political theory. Strauss is especially concerned with the relationship in Hegel between empirical history and his philosophy of history and he argues for the primacy of religion in Hegel's understanding of history and society. In addition to a relatively complete transcript, Leo Strauss on Hegel also includes annotations which bring context and clarity to the text.

**Remnants of Hegel** Félix Duque, 2018-10-09. An original philosophical exploration of the limits of Hegel's thought. In the preface to the second edition of the *Science of Logic*, Hegel speaks of an instinctive and unconscious logic whose forms and determinations always remain imperceptible and incapable of becoming objective even as they emerge in language. In spite of Hegel's ambitions to provide a philosophical system that might transcend messy human nature, Félix Duque argues that human nature remains stubbornly present in precisely this way. In this book he responds to the remnants of Hegel's work not to explicate his philosophy but instead to explore the limits of his thought. He begins with the tension between singularity and universality both as a metaphysical issue in terms of substance and subject and as a theological issue in terms of ideas about the human and divine nature of Jesus. Duque argues that the questions these issues bring out require a search for some antecedent authority for which he turns to Hegel's theory of second nature and the idea of nature as reflected in the nation-state. He considers Hegel's evaluation of the French Revolution in the context of political and civil life and in a religious context how Hegel saw considerations of authority and guilt sublimated and purified in the development of Christianity. This is the work of an important philosopher with a lifetime of ideas and research to draw on. It is a great book on Hegel and a great book of philosophy in its own right. Jay Lampert, author of *Deleuze and Guattari's Philosophy of History*. As a contribution to the field, this book does the admirable work of bringing to the fore the interrelated problems of religion and death as fundamentally philosophical problems. The author is refreshingly well-versed in theological debates surrounding the Eucharist and their philosophical import for Hegel. There is much insight here for scholars especially of the analytic anti-metaphysical school of Hegel studies. They may not walk away convinced that Hegel's metaphysics is mediated by religion but they will certainly see the plausibility of such a reading. For other Hegel scholars the book is a treasure trove of insightful ways of framing Hegel's project. Brent Adkins, author of *Death and Desire in Hegel*. Heidegger and Deleuze *Thought and Faith in the Philosophy of Hegel*. J.E. Walker, 2012-12-06. The purpose of this collection of papers is to introduce English-speaking philosophers and theologians to something of the variety of the contemporary debate about the religious relevance

of Hegel's thought. It is published in the hope that it will appeal not only to specialised students of Hegel's Philosophy of Religion but to a wide audience of scholars interested in Hegel's thought as a whole. The volume grew out of the 1987 Oxford conference on Thought and Faith in the Philosophy of Hegel but has since developed beyond the confines of the original conference programme. The programme of the conference consisted of five major papers on different aspects of Hegel's religious thought and its reception followed by a somewhat shorter commentary delivered by another scholar in the same field. This basic format has been retained but a number of the commentaries have been extended or rewritten and an entirely new piece by Kurt Meist has been commissioned for the purpose of this collection. The volume includes studies of the Lectures on the Philosophy of Religion and the Phenomenology as well as pieces dealing with the theological relevance of Hegel's philosophy of history and Kierkegaard's attack on Hegel. It concludes with an examination of the relevance of Hegel's doctrine of absolute Spirit to the modern defence of his philosophy as a whole.

*A Commentary on Hegel's Logic* John McTaggart Ellis McTaggart, 1910

[Search For Concreteness](#) Darrel E. Christensen, 1986-09

[New Perspectives on Hegel's Philosophy of Religion](#) David Kolb, 1992-09-22

Hegel's ideas about the nature of religion, its history and its relation to philosophy have had great influence on his friends and foes alike. Relying on the new critical edition of Hegel's separate lecture courses, the essays in this book provide new insights into Hegel's ideas and challenge the way we think today. Crucial topics are discussed: Is Hegel a Christian? Does the political community absorb religion? How does religion relate to philosophy? What does Hegel have to say about evil and tragedy about the persistence of mythology about mysticism? The book also touches on the relation of Hegel's thoughts to deconstructive insights into religion.

[New Perspectives on Hegel's Philosophy of Religion](#) Andrew Alexander Davis, Sebastian Rand, 2025-07-24

This collection of new perspectives on Hegel's Philosophy of Religion breaks down some of the most stubborn barriers between the book and its readers. From its polemical preface to its closing ruminations on the state and world history, Hegel's seminal text can appear antiquated and conservative to even the most motivated reader. These essays remove those obstacles by demonstrating how radical many of his reflections on politics and ethics remain some 200 years after its publication. *New Perspectives on Hegel's Philosophy of Religion* works through Hegel's ideas in two distinct stages. Its first half explains how a close reading of contested sections can reveal new possibilities for the interpretation of key issues like private property, family, conscience, patriotism, and the executive branch, covering important topics from each of the three major sections of Hegel's text. The book's second half then considers Hegel's work in dialogue with contemporary political thought, legal studies, critical theory, economic theory, and queer studies. These essays show the rich interplay of Hegelian concepts and insights with pressing contemporary concerns, proving their continued relevance. Maintaining focus on how Hegel's work speaks to us today, this book offers readers an invaluable set of launchpoints to explore his lasting contribution to both the new and perennial concerns of philosophy.

*New Perspectives on Hegel's Philosophy of Religion* David Kolb, 1992-01-01

Hegel's ideas about the nature of religion, its history and its relation to

philosophy have had great influence on his friends and foes alike Relying on the new critical edition of Hegel's separate lecture courses the essays in this book provide new insights into Hegel's ideas and challenge the way we think today Crucial topics are discussed Is Hegel a Christian Does the political community absorb religion How does religion relate to philosophy What does Hegel have to say about evil and tragedy about the persistence of mythology about mysticism The book also touches on the relation of Hegel's thoughts to deconstructive insights into religion

**On Hegel's Epistemology and Contemporary Philosophy** Tom Rockmore, 1996 Aimed at specialists as well as graduate and select undergraduate students this study centers on Hegel's important but neglected theory of knowledge Professor Rockmore interprets Hegel as reacting to the Kantian effort to reformulate epistemology in the wake of what Kant contends is the failure of earlier dogmatic theories Recent work has shown that Hegel's epistemology is a good deal more respectable than has usually been thought Rockmore's aim is to continue that work in order to bring Hegel into the main discussion of knowledge Rockmore's main argument for the relevance of Hegel's theory to the problem of knowledge is that with the apparent failure of foundationalism Hegel's antifoundationalist theory that sees knowledge as perspectival and historical supplies two items helpful to advance the epistemological discussion

**Subjects in the Ancient and Modern World** Allegra de Laurentiis, 2005-09-20 Being a subject and being conscious of being one are different realities According to Hegel the difference is not only conceptual but also influences people's experience of the world and of one another This book aims to explain some basic aspects of Hegel's conception of subjectivity with particular regard to the difference he saw in ancient and modern ways of thinking about and acting as individuals persons and moral subjects

**Essays on Hegel's Philosophy of Subjective Spirit** David S. Stern, 2013-01-01 The first English language collection devoted to Hegel's Philosophy of Subjective Spirit

*Essays on Hegel's Logic* Hegel Society of America. Meeting, 1990-01-01 This book covering all aspects of Hegel's logic raises fundamental issues as well as particular problems of interpretation It discusses whether a speculative logic is possible at all and whether Hegelian logic requires a metalogic or whether it can and ought to make an absolute beginning It examines conceptually and historically the being nothing dialectic the relation of essence to show Schein and Hegel's treatment of the modal categories It proposes radically different views of the role of the understanding in Hegelian logic and a radically different view of the necessity underlying it The book concludes with the argument that Hegel's dialectical logic can cope with a problem that Aristotle's could not

*Essays on Hegel's Logic* provides a welcome introduction to those interested in this central piece of Hegel's system and it poses the question of whether and how the logic provides a closure to the system In different ways and with different degrees of explicitness the book deals precisely with this issue

Hegel's Philosophy of Right Thom Brooks, 2011-12-05 Hegel's Philosophy of Right presents a collection of new essays by leading international philosophers and Hegel scholars that analyze and explore Hegel's key contributions in the areas of ethics politics and the law The most comprehensive collection on Hegel's Philosophy of Right available Features new essays

by leading international Hegel interpreters divided in sections of ethics politics and law Presents significant new research on Hegel's Philosophy of Right that will set a new standard for future work on the topic     *A Commentary on Hegel's Philosophy of Mind* Michael Inwood,2010-08-19 Michael Inwood an eminent scholar of German philosophy presents a full and detailed new commentary on a classic work of the nineteenth century Philosophy of Mind is the third part of Hegel's Encyclopaedia of the Philosophical Sciences in which he summarizes his philosophical system It is one of the main pillars of his thought Inwood gives the clear and careful guidance needed for an understanding of this challenging work In his editorial introduction he offers a philosophically sophisticated evaluation of Hegel's ideas which includes a survey of the whole of his thought and detailed analysis of the terminology he used     **Hegel on Art** Jack Kaminsky,2018-12-01 Professor Kaminsky's lucid exposition is surprisingly the first attempt in English to deal extensively and critically with Hegel's views on art as outlined in his difficult volumes on that subject Hegel on Art thus performs a needed service for those interested in either the philosophy or the history of the fine arts Hegel's idealistic metaphysics was the last European endeavor to construct a universal philosophical system on the traditional pattern and to modern readers it can easily appear more imposing than useful But in his examination of art according to Professor Kaminsky the German philosopher became the most empirical of the empiricists and his observations can be valuable to us quite independent of our commitment to his metaphysics Moreover as Professor Kaminsky shows Hegel's metaphysical framework does give him an advantage not available under the rigorous skepticism of today's positivist or symbolist he can recognize that art mirrors the world of action and so can provide it with objective validity As the author concludes in Hegel's defense It may well be that only art can be used to communicate the important episodes that happen to us or others Without art we lose one of our great sources of information as to who we are and what we ought to do Kaminsky succeeds in the difficult task of summarizing Hegel's aesthetics in a clear well balanced text which follows the historical lines set down by the philosopher His work is the most extensive study of the subject available in English Library Journal     On Hegel's Logic John W. Burbidge,1981
