# On Metaphysics And Poetry

**John Donne,Douglas Brooks-Davies**

## On Metaphysics And Poetry:

**Metaphysical Wit** A. J. Smith, 1992-01-09 English metaphysical poetry from Donne to Marvell is conspicuously witty A J Smith seeks the central importance of wit in the thinking of the metaphysical poets and argues that metaphysical wit is essentially different from other modes of wit current in Renaissance Europe Formal theories and rhetorics of wit are considered both for their theoretical import and their appraisals of wit in practice Prevailing fashions of witty invention are scrutinized in Italian French and Spanish writings so as to bring out the nature and effect of various forms of wit concealed hieroglyphic transformational and others from which the metaphysical mode is distinguished He locates the basis of Renaissance wit in the received conception of the created order and a theory of literary innovation inherent in Humanist belief which led to novel couplings of time and eternity body and soul man and God Yet he finds that metaphysical wit distinctively works to discover a spiritual presence in sensible events and he traces its demise in the 1660s to changes in the understanding of the natural world associated with the rise of empirical science

**Metaphysical Poetry** Paul Negri, 2002-08-26 Includes such masterpieces as Donne's Death Be Not Proud Marvell's To His Coy Mistress plus works by George Herbert Henry Vaughan Richard Crashaw Francis Quarles and others Includes 2 selections from the Common Core State Standards Initiative

**Five Metaphysical Poets** Joan Bennett, 1966 Metaphysical Poetry Colin

Burrow, 2013-07-04 A key anthology for students of English literature Metaphysical Poetry is a collection whose unique philosophical insights are some of the crowning achievements of Renaissance verse edited with an introduction and notes by Colin Burrow in Penguin Classics Spanning the Elizabethan age to the Restoration and beyond Metaphysical poetry sought to describe a time of startling progress scientific discovery unrivalled exploration and deep religious uncertainty This compelling collection of the best and most enjoyable poems from the era includes tightly argued lyrics erotic and libertine considerations of love divine poems and elegies of lament by such great figures as John Donne George Herbert Andrew Marvell and John Milton alongside pieces from many other less well known but equally fascinating poets of the age such as Anne Bradstreet Katherine Philips and Thomas Traherne Widely varied in theme all are characterized by their use of startling metaphors imagery and language to express the uncertainty of an age and a profound desire for originality that was to prove deeply influential on later poets and in particular poets of the Modernist movement such as T S Eliot In his introduction Colin Burrow explores the nature of Metaphysical poetry its development across the seventeenth century and its influence on later poets and includes A Very Short History of Metaphysical Poetry from Donne to Rochester This edition also includes detailed notes a chronology and further reading Colin Burrow is Reader in Renaissance and Comparative Literature at Gonville and Caius College Cambridge He has edited Shakespeare's Sonnets for OUP and The Complete Works of Ben Jonson and is working on the Elizabethan volume of the Oxford English Literary History If you enjoyed Metaphysical Poetry you might like John Donne's Selected Poems also available in Penguin Classics

Seminar paper from the year 2018 in the subject Didactics for the subject English Literature Works grade 2 0 Johannes Gutenberg University Mainz language English abstract Most people would think of Shakespeare if they were asked for the most famous poet of the Elizabethan era He invented the Shakespearean Sonnet after all which is probably the only type of Renaissance poem German students have to read during their school career However Shakespeare was not the only author of sonnets during this time Someone who deserves just as much acknowledgement in this area is John Donne who had an especially meteoric comeback in 1921 due to the publication of Eliot's essay *The Metaphysical Poets* Roland Greene an editor for the Princeton Encyclopedia of Poetry and Poetics shows in the encyclopedia that many scholars actually consider Donne to be one of the greatest poets in the English language His work focused on themes of love and devotion both the physical and spiritual kinds The latter can be also found in his poem *A Valediction Forbidding Mourning* In this poem Donne describes a situation every person who has fallen in love can relate to the lovers face an upcoming farewell Although the poem was written around 400 years ago it still addresses issues that can be found in several poems songs or other stories of our time Maybe it would be too easy to compare Donne's metaphysical love poetry to a current pop song since he elaborates this valediction with something resembling a catchy refrain a series of four metaphysical conceits where he unleashes all his rhetorical cleverness as Greene calls it What the title suggests and what also emerges upon a first reading is that the speaker wishes to forbid any mourning about the parting of the two lovers They appear strong and well prepared since their love outshines the love of dull sublunary lover's 13 But after further reflection and rereading the poem the reader can deduce that the speaker is trying to cover up his worries and fears over the parting Baumlin raises the question of whether the last three stanzas in Donne's poem serve as a doubting promise that the speaker will return and a plea for the woman's continued faith

**The Revival of Metaphysical Poetry** Joseph Ellis Duncan, 1959 The Revival of Metaphysical Poetry was first published in 1959 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The metaphysical style as expressed in its most distinguished and distinguishable form by the seventeenth century poet John Donne has had an increasing influence on latterday critics and poets Thus it is important to an understanding of literary history to examine this revival Professor Duncan traces the movement and analyzes changing interpretations of the style in the work of British and American poets and critics He shows that much of the new criticism and the metaphysical poetry of T S Eliot and that of the metaphysical style has thrived on fresh critical interpretation and vital poetic experimentation     **The Metaphysical Poets** Gerald Hammond, 1979-06-01 This is a Bloomsbury Academic title For our full Academic Catalogue please visit <https://www.bloomsbury.com/academic/>

bloomsbury com uk academic Metaphysical Lyrics & Poems of the Seventeenth Century, Donne to Butler Sir Herbert John Clifford Grierson,1921 **The Metaphysical Poets** David Reid,2014-06-11 The Metaphysical Poets provides an introduction to the work of six strikingly various and original poets Donne Herbert Crashaw Vaughan Marvell and Traherne By closely examining how the poems work the book aims to help readers at all stages of proficiency and knowledge to enjoy and critically appreciate the ways in which fantastic and elaborate styles may express private intensities The emphasis is on the differences covered by the term Metaphysical and on the rich and strange diversity of the poets inner lives The book examines the expressive forms of interiority the characteristic inward turn of Metaphysical wit and compares the wit of its six poets with the non introspective wit of poets such as Cowley the Cavaliers and the Augustans The discussion of each poet is preceded by a Life in which the biographical facts personal cultural and political are treated with a view to illuminating the concerns of the poems **Five Metaphysical Poets** Joan Bennett,1964-01-03 Mrs Bennett s Four Metaphysical Poets Donne Herbert Vaughan and Crashaw was issued under a new title in 1964 with an additional chapter on Andrew Marvell It is that text which is reprinted here In her study Mrs Bennett has analysed emphasised and illustrated the qualities of metaphysical poetry in general and the peculiarities of the individual poets She shows that if we retain the word metaphysical as a label for a poetic tradition it is as appropriate to Marvell as it is to Vaughan and more so than to Crashaw

**Metaphysical Poetry** Malcolm Bradbury,David Palmer,1970 *The Metaphysics of Love* Albert James Smith,2010-02-04 This book is an important study of European love poetry from Dante to Milton It contrasts some of the ways whereby major Renaissance poets express a conflict between sensual love and spiritual love For these poets love arouses metaphysical disquiet throwing into relief the frailties and contradictions of human nature The argument grows out of a close comparison of passages in Dante s Divina Comedia and Milton s Paradise Lost The extensive survey of conceptions of sacred and secular love is the basis for studies of other major texts Petrarch s I Trionfi Michelangelo s love poems Spenser s The Faerie Queene Shakespeare s Sonnets Donne s love poetry and prose writings Caroline lyrics Vaughan s Silex Scintillans and Milton s Paradise Regained Though presenting a wide ranging account of the evolution of ideas of love from the twelfth to the seventeenth century the book is essentially concerned with the way in which contrasting attitudes are experienced and proved in the poetry and contribute to each poet s distinctive understanding of love **Immanent Distance** Bruce Bond,2015-09-24 In these essays Bruce Bond interrogates the commonly accepted notion that all poetry since modernism tends toward one of two traditions that of a more architectural sensibility with its resistance to metaphysics and that of a latter day Romantic sensibility which finds its authority in a metaphysics authenticated by the individual imagination Poetry whether self consciously or not has always thrived on the paradox of the distant in the immanent and the other in the self as such it is driven by both a metaphysical hunger and a resistance to metaphysical certainty Hidden resources of being animate the language of the near just as near things beckon from an elusive and inarticulate distance

Bond revalidates the role of poetry and more broadly of the poetic imagination as both models for and embodiments of a transfigurative process an imperfectly mimetic yet ontological engendering of consciousness at the limits of a language that must if cognizant of its psychological ethical and epistemological summons honor that which lies beyond it *The Metaphysical Poets* Donald Mackenzie, 1990 *Metaphysical Poetry* Liz Souza, 2009-12-23 Science fiction and imagination of ideas in variables to situations and outcome others relating to imagination and ideas created by author **On the Nature of Poetry** Kenneth Verity, 2012-08-08 Some guides to a subject could more or less be written by any expert in that field but a small minority are unique creations of a rare individual who has their own view Unfortunately most of the latter types of guides fail to be good general guides Verity's genius makes him the exception This book is arranged in chronological chapters that trace the evolution of poetry as an art form At the same time each chapter gives a most practical explanation of how that aspect of poetry that it covers works and why The book is immensely readable hugely informative and adds to the ability of the reader to enjoy and to create poetry It is a classic Epictetus Amazon review The great merit of Verity's approach is that he quotes lavishly throughout not only from the poems themselves but also from a variety of critics LIBRARY REVIEWS Of his first book of sonnets Kingsley Amis wrote They belong within the corpus of English poetry Excerpts of Interview with Kenneth Verity on The Vanessa Phelps BBC Radio programme on June 2009 on the News Page off the Home page The amount of reading which underpins this book is breathtaking The great merit of Verity's approach is that he quotes lavishly throughout not only from the poems themselves but also from a variety of critics The chapter on poetry's figurative element is a model of lucid definition and telling illustration showing how many layers of meaning may lie behind a single word LIBRARY REVIEWS The author writes The intention of this book is to examine and analyse the essential nature of the phenomenon we call poetry to seek an understanding of the power this art form exerts over mind and heart to comprehend its potency and to explain its perennial ability to command the respect of mankind Almost a library in one volume this unusual book written by an accomplished poet examines the 4000 years old phenomenon of poetry *The Crescent Moon Book of Metaphysical Poetry* Charlotte Greene, 2016-03-21 THE CRESCENT MOON BOOK OF METAPHYSICAL POETRY Edited and introduced by Charlotte Greene With a new picture gallery and additional poems for this edition All of the major and many of the minor Metaphysical poets are featured in this anthology including John Donne Lady Mary Wroth Robert Herrick George Herbert Sir William Davenant the Countess of Sidney Godolphin Richard Crashaw John Cleveland Abraham Cowley Richard Lovelace Andrew Marvell Henry Vaughan and Thomas Stanley The Metaphysical poetic style is witty learned subjective sensual intellectual reflective philosophical baroque intense and sometimes ecstatic Metaphysical poetry was passion and emotion modified by intellect passionate ratiocination Herbert Grierson called it while T S Eliot described John Donne's poetry as experience modified by his sensibility Helen Gardener said that Metaphysical verse was an expanded epigram and Margaret Willy called it feeling thought Metaphysical poetry used satire and irony as well as the new science

biology mathematics cosmology and microcosmic emphasis It is a poetry concerned with living for the present with philosophical and religious subjects with in short the soul It is a dramatic poetry essentially lyrical often rough at the edges with a love of individualized verse forms and writing poems as long as needed to be After the adherence to traditional stanzas of Elizabethan poetry the sonnet being the most obvious type the Metaphysical poets employed a wide variety of forms and metrical patterns Thomas Traherne for example wrote in a new verse form each time he composed a poem Poets such as Vaughan Traherne and Marvell give the impression of writing until they ve finished what they wanted to say Their poetic forms were open a short line here an extended stanza there as the subject required Metaphysical poetry was partly Classical partly Christian and partly religious it was partly humanist partly Cavalier and partly Elizabethan John Donne for example was just as much Elizabethan post Petrarchan Renaissance and Classical as Metaphysical Some critics separate the Metaphysical poets love poems from their religious ones The distinction may be useful but it is not how poets write The boundaries between profane sacred love religion secular divine is not that clearly marked by the poets themselves The religious poems of the Metaphysical poets are often their most erotic They write of God the beloved and their relationship to him in erotic terms In poems such as The World for example Henry Vaughan narrates the old notion of the soul mystically married to the Bridegroom God With an introduction and bibliography The text has been revised for this edition with new poems added Includes a new picture gallery Also available in an E book edition [www.crmoon.com](http://www.crmoon.com)
