On Searle:

(On) Searle on Conversation John R. Searle, Herman Parret, Jef Verschueren, 1992-02-20 At an international conference held in 1981 at the Universidade Estadual of Campinas Brazil a controversial lecture was given by John Searle which presented two conceptual theses that conversation does not have an intrinsic structure about which a relevant theory can be formulated and that conversations are not subject to constitutive rules This lecture was first published in 1986 under the title *Notes on Conversation* and was revised several times afterwards The present volume offers the most recent version Because of the importance of the article for conversation analysis and for pragmatics in general the editors have put together Searle's target article along with eight original comments The volume closes with a reply to replies by Searle In sociolinguistic studies intralingual code switching has been given less attention than most other areas and linguists attitudes towards the use of non standard varieties still often suffer from fallacies of prescriptivism Czech a clear case of a language having a Standard and a strong central vernacular with intensive shifting between them offers many points of general interest to sociolinguists

On Searle William Hirstein, 2001 This brief text assists students in understanding Searle's philosophy and thinking so they can more fully engage in useful intelligent class dialogue and improve their understanding of course content Part of the Wadsworth Notes Series which will eventually consist of approximately 100 titles each focusing on a single thinker from ancient times to the present ON SEARLE is written by a philosopher deeply versed in the philosophy of this key thinker Like other books in the series this concise book offers sufficient insight into the thinking of a notable philosopher better enabling students to engage in reading and to discuss the material in class and on paper

John Searle Nicholas Fotion, 2014-12-18 Direct combative and wide ranging John Searle's philosophy has made fundamental and lasting contributions to thinking in language mind knowledge truth and the nature of social reality His account of language based on speech acts that mind is intentional and the Chinese Room Argument are just some of his most famous contributions to philosophical thinking In this the first introduction to John Searle's philosophy Nick Fotion provides clear and assured exposition of Searle's ideas while also testing and exploring their implications The book begins by examining Searle's work on the philosophy of language his analysis of speech acts such as promising his taxonomy of speech acts and the wider range of indirect speech acts and metaphorical uses of language The book then moves on to cover the philosophy of mind and outlines Searle's ideas on international states It introduces his notions of background and network his claims for the often unrecognized importance of consciousness and examines his attacks on other philosophical accounts of mind such as materialism functionalism and strong AI The final section examines Searle's later work on the construction of social reality and concludes with more general reflections on Searle's position vis a vis ontology epistemology scepticism and the doctrine of external realism

Views Into the Chinese Room John Preston, Mark Bishop, 2002 The most famous challenge to the aims of cognitive science and artificial intelligence is the philosopher John Searle's 1980 Chinese Room argument Searle argued that the fact that

machines can be devised to respond to input with the same output that a mind would give does not mean that mind and machine are doing the same thing for the latter lacks understanding

Nineteen specially written essays by leading scientists and philosophers assess and respond to this crucial challenge

fascinating reading for anyone interested in minds and computers

Searle's Philosophy and Chinese Philosophy Bo Mou, 2008-06-30 This volume investigates how through critical engagement the philosophy of John Searle in the Western analytic tradition and some thoughts and strands in Chinese philosophy can jointly contribute to the common philosophical enterprise and shows how such comparative methodology of constructive engagement is important or even indispensable in philosophical inquiry The anthology includes Searle's keynote essay and 15 engaging pairs of essay reply dialogues each of which consists of one previously unpublished essay by some expert and Searle's engaging reply and which are organized into four subjects respectively on mind language morality and meta philosophical methodological issues The anthology also includes the volume editor's theme introduction on the constructive engagement movement in view of Searle's philosophy and Chinese philosophy Contributors include Robert E Allinson Chung ying Cheng Kim chong Chong Chris Fraser Yiu ming Fung Soraj Hongladarom Joel W Krueger B Jeannie Lum Aloysius P Martinich Bo Mou Anh Tuan Nuyen John R Searle Avrum Stroll Marshall D Willman Kai yee Wong and Yujian Zheng

John Searle N. Fotion, 2000 One of the world's most important philosophers of mind and language John Searle b 1932 is direct combative and intellectually ambitious His philosophy has made fundamental and lasting contributions to how we think about speech consciousness knowledge truth and the nature of social reality Here with remarkable clarity a leading authority introduces students and generalists to those contributions Nick Fotion explains Searle's ideas in full while also testing and exploring their implications He first takes up Searle's philosophy of language examining how Searle treats speech acts and thinks about the metaphorical use of language Next the book sketches Searle's philosophy of mind including his claims for intentionality and for the centrality of consciousness This discussion highlights Searle's argument that the mind possesses a subjective character that materialist explanations including behaviorism and strong artificial intelligence cannot contain The author goes on to look at Searle's later writings on the construction of social reality work that mounts a sophisticated but plainly stated case against deconstructionist skeptical and relativistic accounts Concluding with general reflections on Searle's position vis vis ontology and epistemology this book is the first to assess and identify common themes and approaches in the whole range of his extensive thought In doing so it presents Searle's extremely influential work for the first time as a coherent philosophy

Beyond Conceptual Dualism Giuseppe Vicari, 2008 This book is a systematic analysis of John R Searle's philosophy of mind Searle's view of mind as a set of subjective and biologically embodied processes can account for our being part of nature qua mindful beings This model finds support in neuroscience and offers reliable solutions to the problems of consciousness mental causation and the self

Intentional Acts and Institutional Facts Savas L. Tsohatzidis, 2007-06-17 Savas L Tsohatzidis John Searle is famous for his contributions to two fields with long and dist

guished traditions within analytic philosophy the philosophy of language and the philosophy of mind but his interests and achievements extend beyond these fields From the early 1990s he has added to his research agenda a theme that was not only largely new to his philosophical preoccupations but also largely absent from the concerns of analytic philosophy as a whole the systematic examination of the mode of being of a particular kind of facts institutional facts that appear to be no less objectively knowable than ordinary physical facts yet seem to be essentially dependent for their existence on the subjectivity of human minds to recall one of his favourite examples one can know that something is a piece of paper as objectively as one can know that it is a twenty dollar bill but something's being a piece of paper does not depend on anyone's taking it to be a piece of paper whereas its being a twenty dollar bill crucially depends on a lot of people taking it to be a twenty dollar bill Searle's attempt to give a systematic account of the combination of epistemic objectivity and ontological subjectivity that in his view characterizes institutional facts has led to a full blown theory that he presented in his 1995 book *The Construction of Social Reality* and further developed in his 2001 book *Rationality in Action* *Truth, Force, and Knowledge in Language*

Savas L. Tsohatzidis, 2020-08-24 This book collects twenty five of the author's essays each of which addresses a descriptive or a foundational issue that arises at the interface between linguistic semantics and pragmatics on the one hand and the philosophy of language on the other Arranged into three interconnected parts I Matters of Meaning and Truth II Matters of Meaning and Force III Knowledge Matters the essays suggest that some key topics in the above mentioned fields have often been approached in ways that considerably underestimate their empirical or conceptual complexity and attempt to delineate perspectives from which and conditions under which an improved understanding of those topics could be sought The book will be of interest to linguists working in semantics and pragmatics and to philosophers working in the philosophy of language and in epistemology

John R. Searle Dirk Franken, Attila Karakus, Michel, Jan G. Michel, 2013-05-02 John R Searle is one of the world's leading philosophers During his long and outstanding career he has made groundbreaking and lasting contributions to the philosophy of language to the philosophy of mind as well as to the nature structure and functioning of social reality This volume documents the 13th M nster Lectures on Philosophy with John R Searle It includes not only 11 critical papers on Searle's philosophy and Searle's replies to the papers but also an original article by John R Searle on his overall philosophical enterprise entitled *The Basic Reality and the Human Reality* I think M nster is probably unique among contemporary universities in its ability to produce such a high level of philosophical production from their philosophy students John R Searle
