Academic Distinctions James G. Ladwig, 2016-05-06 Academic Distinctions is the most sustained and rigorous critique of radical sociology of school knowledge and its major figures to date Using a variety of theoretical lenses to analyze and reconstitute the field structuralist poststructuralist and feminist James Ladwig documents how the so called new sociologists of education lost their theoretical way and failed to realize their educational goals

### **Listening to the Whispers** Christine Sorrell Dinkins, Jeanne Merkle Sorrell, 2006-07-05

Listening to the Whispers gives voice to scholars in philosophy medical anthropology physical therapy and nursing helping readers re think ethics across the disciplines in the context of today s healthcare system Diverse voices often unheard challenge readers to enlarge the circle of their ethical concerns and look for hidden pathways toward new understandings of ethics Essays range from a focus on the context of corporatization and managed care environments to a call for questioning the fundamental values of society as these values silently affect many others in healthcare Each chapter is followed by a brief essay that highlights issues useful for scholarly research and classroom discussion The conversations of interpretive research in healthcare contained in this volume encourage readers to re think ethics in ways that will help to create an ethical healthcare system with a future of new possibilities Outstanding Academic Title Choice Magazine

The Varnished Truth David Nyberg, 1993-06 Everyone says that lying is wrong But when we say that lying is bad and hurtful and that we would never intentionally tell a lie are we really deceiving anyone In this wise and insightful book David Nyberg exposes the tacit truth underneath our collective pretense and reveals that an occasional lie can be helpful healthy creative and in some situations even downright moral Through familiar and often entertaining examples Nyberg explores the purposes deception serves from the social kindness of the white lie to the political ends of diplomacy to the avoidance of pain or unpleasantness He looks at the lies we tell ourselves as well and contrary to the scolding of psychologists demonstrates that self deception is a necessary function of mental health one of the mind s many weapons against stress uncertainty and chaos Deception is in our nature Nyberg tells us In civilization just as in the wilderness survival does not favor the fully exposed or conspicuously transparent self As our minds have evolved as practical intelligence has become more refined as we have learned the subtleties of substituting words and symbols for weapons and violence deception has come to play a central and complex role in social life The Varnished Truth takes us beyond philosophical speculation and clinical analysis to give a sense of what it really means to tell the truth As Nyberg lays out the complexities involved in leading a morally decent life he compels us to see the spectrum of alternatives to telling the truth and telling a clear cut lie A life without self deception would be intolerable and a world of unconditional truth telling unlivable His argument that deception and self deception are valuable to both social stability and individual mental health boldly challenges popular theories on deception including those held by Sissela Bok and Daniel Goleman Yet while Nyberg argues that we deceive among other reasons so that we might not perish of the truth he also cautions that we deceive
