polychronicity Coping with Chronic Illness Silvia Bonino, 2020-12-20 This valuable book combines psychological theories of health with the lived experience of coping with chronic health conditions focusing on the ill person as an actor of their own development. It draws on perspectives from developmental and health psychology alongside the author's personal experience of chronic illness. Bonino considers all aspects of living with illness from issues that impact on everyday functioning such as pain and fatigue to the rebuilding of identity through meaningful new goals and effective actions and the development of therapeutic relationships. Psychological theories are interweaved with descriptions of lived encounters to center the experience of the person living alongside illness and provide insightful points of reference that everyone could try to use when facing the challenges of chronic disease in the course of their daily lives. Well-Being of Youth and Emerging Adults across Cultures Radosveta Dimitrova, 2018-01-02 The current volume presents new empirical data on well-being of youth and emerging adults from a global international perspective. Its outstanding features are the focus on vast geographical regions e.g. Europe, Asia, Africa, North and South America and on strengths and resources for optimal well-being. The international and multidisciplinary contributions address the complexities of young people's life in a variety of cultural settings to explore how key developmental processes such as identity, religiosity and optimism, social networks and social interaction in families and society at large promote optimal and successful adaptation. The volume draws on core theoretical models of human development to highlight the applicability of these frameworks to culturally diverse youth and emerging adults as well as universalities and cultural specifics in optimal outcomes. With its innovative and cutting-edge approaches to cultural theoretical and methodological issues, the book offers up-to-date evidence and insights for researchers, practitioners and policy makers in the fields of cross-cultural psychology, developmental science, human development, sociology and social work.

Religious Narratives in Italian Literature after the Second Vatican Council Jenny Ponzo, 2019-03-18 This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church and the problematic notion of sanctity emerging from contemporary narrative.

After. Il mondo che ci attende Cristina Pozzi, Andrea Dusi, 2021-09-15 Perch il Covid 19 ci ha colti di sorpresa stato davvero un cigno nero, un evento raro e imprevedibile. Per restare in tema di metafore animali, meglio dire che si trattava di un rinoceronte grigio, una minaccia di grande impatto e altissima probabilit  ma trascurata. Le pandemie sono infatti studiate da anni come uno dei maggiori rischi per l'umanit . Ma per essere preparati agli scenari futuri non basta immaginarli, studiarli, esplorarli: occorre che le simulazioni si traducano in azioni diventando strategie.

per chi governa e cultura per i cittadini Il rinoceronte invece ci ha colpiti e travolti e ha cambiato completamente lo status quo il mondo come lo conoscevamo non esiste più Ma se siamo arrivati impreparati all'emergenza rischiamo di esserlo ancora di più di fronte a quello che ci aspetta Cosa succederà dopo Per prevedere e costruire il futuro che ci attende sono necessari gli strumenti giusti facendo ricorso alle teorie della complessità del cambiamento al modello VUCA acronimo inglese di volatilità incertezza complessità e ambiguità quattro parole magiche della nostra epoca e agli studi di futuro due esperti future makers prendono in esame i driver del cambiamento e il loro impatto su diversi ambiti economia politica geopolitica scienza tecnologia ambiente società ed etica Ma ci mostrano anche come la composizione degli scenari futuri dipenda da noi e dalle nostre scelte il nuovo mondo è After nelle nostre mani

The University Bookman, a Quarterly Review, 1970 Neo-Fascism in Europe Luciano Cheles, Ronnie Ferguson, Michalina Vaughan, 1991 The re-emergence of far right parties throughout Europe was one of the most striking and disturbing features of European politics in the 1980s Though its importance differs from country to country international links between parties may make neo-Fascism more respectable and a less transitory feature of European politics than seemed likely at the start of the 1980s This phenomenon is analyzed in this collection of essays which offers an analysis of the various neo-Fascist movements of Western Europe representing a range of disciplines and provides analyses of the neo-Fascist movements in Italy Germany Spain Portugal Greece France and Britain It combines studies of the underlying socio-economic conditions on which neo-Fascist ideology thrives with explorations of specific areas such as the use of propaganda or the denial of Nazi atrocities
