Tactics Made Simple Jon Emmett, 2019-03-05 Olympic gold medallist and multiple world champion Paul Goodison explains why this book is important if you want to win races He says To win sailboat races you need to sail the boat fast This comes down to hours on the water training and tuning there are few shortcuts to hours of practising on the water To consistently win races you need to sail fast and smart making the right decisions to sail the best course If you are not the fastest boat you are still able to win races and regattas by managing risk and sailing smart This is where good tactics come in But unlike boatspeed tactics may be learnt by thinking about each leg of the course and different situations from the comfort of your own home Jon Emmett s new book Tactics Made Simple is a great tool to help fast track this learning This book explains simply through hundreds of diagrams what tactics can be applied around the race track Individual boats in each scenario are given names so that you can easily understand what they are doing Individual chapters take you around the race course from before you get on the water through the pre start start different legs and manoeuvres Each section contains detailed advice for the beginner intermediate and advanced sailor so you can just look at the level of tactics relevant to you Ideal for dinghy sailors there is also a wealth of advice that will benefit yachtsmen This is a practical way to improve your racing results whether starting out moving up the club circuit or competing at national level and beyond Originally published by Wiley Nautical as Be Your Own Tactics Coach

first boat they had ever designed into the epic offshore Fastnet Race let alone with the intention of winning it But that is what Dick Carter did in 1964 beating all 151 other yachts some sailed by the most notable sailors of the day He repeated the feat 4 years later with another of his own designs which also won the Admiral s Cup that year as top boat and top team but by then he could certainly not be described as an amateur yacht designer His radical innovations created fast and comfortable boats which were much in demand in this the golden age of offshore racing They were commissioned by the top sailors and succeeded in winning the Admiral s Cup Southern Cross Series One Ton Cup Two Ton Cup and many of the biggest races Racing with Dick in these years was Sandy Weld who helped launch tune and race the boats Dick skippered Sandy s account depicts the intense competition of crews dedicated to winning and the camaraderie and enthusiasm of those who participate in this demanding sport It is an appreciation of Dick Carter s designs and his skill as a skipper But after just a decade at the top of his game Dick Carter quit the world of sailing and moved on to other challenges He hadn t been heard of for so long that sailors assumed he was dead His surprise appearance at the funeral of Ted Hood gave rise to the suggestion that he wrote his autobiography While his career as a yacht designer may have been brief the impact of his innovations has lasted the test of time Who today would think of an offshore yacht without internal halyards in the mast or that the rudder always had to be fixed to the keel These concepts and many more were first introduced by Dick Carter
