Natural Resource Management Strategy ,2000-01-01 Arable land deserts mountains forests rivers and coastal zones characterize the diverse regions in Eastern Europe and Central Asia ECA As varied as the geography is so are the policy directions taken by the region's governments concerning natural resource management A lack of conservation measures misuse and poor management have impaired many of the natural resources now available in these countries Although the pressure on natural resources in ECA is less than in other regions and the area has more abundant resources the accessibility and utility of those resources belie the figures Where there is arable land the growing season is short Where there are immense forests the climate is harsh To assist the Bank's client countries in ECA with sustainable use of natural resources this volume identifies the various challenges provides a history of the Bank's regional natural resource strategy outlines a strategic framework and proposes new strategies and policy instruments to implement them Natural resources in this publication refer to non mineral resources such as forests rivers and land

Management of Water Resources Musa Asad,1999-01-01 Although procedures for pricing retail distribution have been established for a long time methods for pricing bulk or wholesale water supplies are still evolving How to finance the infrastructure and service of bulk water supply and how to use pricing to achieve efficient allocation and use of water as a resource are the central issues that emerge from discussions about bulk water pricing Efficiency will lead to allocating water resources better reducing water losses caused by poor maintenance of the supply systems and increased monitoring of water quality At first glance Brazil may not appear to be a relevant country from which to draw lessons in distributing scarce water resources since it contains 12 percent of the world's fresh water supply However with its vast territory and issues of regional drought and population explosion Brazil provides a unique

environment in which to demonstrate how adequate pricing of bulk water on a regional level can help allocate water efficiently This paper offers a framework for bulk water pricing reform and examines the lessons from recent analytical work and practice in Brazil as well as relevant international experience It then offers recommendations for the development of both water pricing and allocation policies to facilitate continued implementation of bulk water pricing in Brazil

Forest Management in Nepal Ian Hill,1999-01-01 Forests play a vital role in maintaining Nepal s impressive biodiversity which has global significance With only 0 1 percent of the world s total area Nepal contains 2 percent of the planet s flowering

plants 8 percent of its birds and 4 percent of its mammals As Nepal develops its forest resources it needs to minimize the biotic pressures affecting the structure and dynamics of forest plant communities and wildlife populations and thereby reverse the current destructive pressures on the country s biodiversity The study aims to provide a better understanding of the ways in which forest resources are used in Nepal Its focus is to examine systematically the costs and benefits of present and possible future sustainable and biodiversity friendly management practices from household national and global perspectives The authors define the analytical framework and the costs of financial and economic alternatives They also present the economic social institutional and legal issues and recommend strategies for change The report should be of use to national and donor agencies concerned with the management of natural resources and conservation of biodiversity in Nepal providing a framework for possible future donor support to the sector It highlights issues that are of importance in the formulation and implementation of natural resource management programs by government and non government agencies

Agriculture Sector Programs Nwanze Okidegbe,1998-01-01 This sourcebook provides practical guidance to policymakers and program planners in countries and to development agencies on how to carry out or support an agricultural sector program from initial discussions to developing the program concept to securing broad stakeholder involvement to implementation It explains the reasons why countries may wish to undertake a sector or subsector program and describes the conditions which can help ensure the program s success provides details on how to formulate a sector strategy and bring about institutional reforms focuses on core public sector activities based on a detailed expenditure review and suggests ways of encouraging donors to work together under the leadership of the partner country government
