Remembering for the Future J. Roth, E. Maxwell, 2017-02-13 Focused on The Holocaust in an Age of Genocide Remembering for the Future brings together the work of nearly 200 scholars from more than 30 countries and features cutting edge scholarship across a range of disciplines amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken In addition to its international scope the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly Historians and ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust

War and the Future: Italy, France and Britain at War H. G. Wells, 2019-11-25 In War and the Future Italy France and Britain at War H G Wells intricately weaves a narrative that examines the sociopolitical landscape of Europe during the tumultuous times of the World Wars Through a blend of socio political analysis and speculative fiction Wells not only articulates the immediate effects of war on these nations but also anticipates future implications of conflict on society and civilization His incisive prose captures the zeitgeist of early 20th century Europe characterized by the disillusionment with traditional societal structures and the burgeoning desire for reform situating his arguments within the literary context of modernism and post Victorian thought H G Wells known for his

prescient insights and inventive storytelling lays the groundwork for this work through his experiences as a social commentator and a critic. As a key figure in the intellectual milieu of his time, his lifelong engagement with themes of progress, technology, and human nature informed his perspectives on the inevitabilities of global conflict. Wells's extensive travels and interactions with influential political figures also contributed to his understanding of the dynamics at play in European geopolitics. *War and the Future* is essential reading for anyone seeking to understand the complexities of war's implications on society and the individual's place within it. With Wells's unique blend of fact and speculation, this book serves not only as a historical record but as a timeless exploration of the human condition amidst the chaos of warfare. Whether you are a student of history, literature, or political science, Wells's insights remain strikingly relevant, urging readers to reflect on the past as they navigate the uncertainties of the future.

Heroes of South African Discovery N. D'Anvers, 1878 **The Current**, 1887 *The New Poland* Charles O. Cameron, 1919 Fathers on Film Katie Barnett, 2020-02-06

The father is an enduring and iconic figure in Hollywood cinema, and in the 1990s narratives of redemptive fatherhood featured prominently in some of the decade's most popular films like *Kindergarten Cop* (1990), *Mrs. Doubtfire* (1993), *Jurassic Park* (1993), and *The Lion King* (1994). Interpreting such films through the lens of feminist and queer theory, along with masculinity studies and psychoanalysis, Katie Barnett offers an insightful and interdisciplinary discussion of cinematic fathers. Barnett reveals that the father figure is often portrayed as one that invests in and is part of a discourse of reproductive futurism. This plays out across a range of genres, including rom-coms, fantasy, sci-fi, drama, and disaster. By exploring both blockbuster and more low-budget films of the 1990s, Barnett explores the figure of the father against the crisis of masculinity in the United States and indeed more globally at this time.
