The Mysticism of Ordinary and Extraordinary Experience Harry L. Serio, 2021-04-12 We are so much more than we appear to be The why of our existence is far more complex than the how of our being Mysticism probes the hidden nature of who we are why we are and our relationship to our Creator We catch glimpses of this not only in the ordinary experiences of life but also through extraordinary and unusual encounters with mystery Mysticism is the awareness of our reality The

Mysticism of Everyday Edward Carter, 1991 Much of the traditional literature and teaching on Christian mysticism focuses on that most special experience of God which the very rare individual enjoys The current renewal of Christian mysticism however is being directed toward a more ordinary mysticism The *Mysticism of Everyday* develops and encourages this more ordinary form While not completely omitting a discussion of classical mysticism it concentrates on that type of mysticism which many people experience Indeed some ordinary mystics are unaware of their own profound mystical experiences In *Mysticism* Edward Carter guides us into recognizing and affirming the mystical experiences of everyday life In doing so he provides a needed complement to the long standing but limited tradition in classical Christian mysticism *Western*

Hall III, 2015-02-11 In *Three Mystics Walk into a Tavern* Jalal ad Din Rumi Moses de Le n and Meister Eckhart three of the greatest mystics of all time meet in Venice for an imaginary night long conversation that will inspire everyday individuals of the twenty first century to find their own spirituality and realize that everyone can be a mystic Although the mystics came from different backgrounds and religious traditions Islam Judaism and Christianity their spiritual paths led them to similar understandings of a union with the Divine The three mystics have a timeless and timely message for people who walk the earth eight centuries after they did no matter an individual s religious background or even if they have none It is a message of connecting with the divine spark deep within us and within the universe **The Psychology of Religious Mysticism** James Henry Leuba, 1929

This classic study examines a problem that stands at the heart of society How does a child distinguish between right and wrong Professor Piaget and his colleagues begin their investigation by analyzing the rules of the game in this case a seemingly simple game of marbles as handed down from one group of children to another They observe the child s total acceptance of the consensus rules and describe the moral pressure of the group on the individual Piaget proceeds to an analysis of lying cheating adult authority punishment and responsibility noting and evaluating the changing attitudes of growing children toward these moral realities The book concludes with a comparison of the findings of this significant study with those theories in social psychology and sociology that bear directly on the moral development of the child Reverence

for the Relations of Life Frank M. Oppenheim, S.J., 2016-12-15 Josiah Royce and William James lived in Cambridge Massachusetts on Irving Street just two doors apart and Charles Peirce grew up only blocks away John Dewey was born and educated in nearby Vermont These four great thinkers shared more than geographic space they engaged in a series of formative philosophical discussions By tracing the interactions of Royce 1855-1916 with James Peirce and Dewey Oppenheim re imagines pragmatism in a way that highlights the late Royce s role as mediator and favors the seed plant image of O W Holmes Jr over the corridor image of Papini Josiah Royce emphasized that communities of all sizes ranging from families to towns needed reverence for the relations of life not only to thrive but to survive This theme permeates the dialectic of Royce s interactions with Peirce James and Dewey Oppenheim analyzes the agreement and disagreement of these thinkers on the

method and content of philosophy skepticism and intelligibility and nominalism and intentionality as he uncovers their varied stances toward transcendent Reality Oppenheim repudiates Ralph Barton Perry's tactic of using Royce as a foil to display James positively by offering a richer portrait of Royce Oppenheim calls attention to Royce's doctrine of two levels and its effects on the distinction of human and super human by showing the contrast of Royce's third attitude of will against two primarily self-centered attitudes of will and by examining the roles of Spirit Community and semiotic process in Royce's late thought *The Philosophy of Mysticism* Edward Ingram Watkin, 1920 *A Psychological Interpretation of Mysticism ...* Clarence Herbert Hamilton, 1916 *Becoming an Ordinary Mystic* Albert Haase, OFM, 2019-08-27 Do you ever feel like you are walking in spiritual circles While we might think it would be different for a Franciscan priest Father Albert Haase shares the same struggles Yet he also affirms that we are all called to be ordinary mystics This book offers a daily path to help us learn to be a mystic cultivating a life with God in which we draw close listen and respond moment to moment

Art Disarming Philosophy Steven Shakespeare, Niamh Malone,, Gary Anderson, 2021-09-23 Non philosophy poses a challenge to philosophical thought inspired by the work of Fran ois Laruelle It questions the idea that philosophy or other disciplines can tell us what it means to think This edited collection brings together an internationally known and interdisciplinary group of scholars including a major new essay by Laruelle himself Together they use non philosophy to cross the boundaries between philosophy and performance Philosophers have been busy for centuries looking for the foundations of truth value and reality They try to say what it all means and how it all fits together Areas of life like science and art have to wait for the philosopher to show up to tell them what they are really about Theory dictates meaning performance just puts it into effect Non philosophy is different It says that reality is not an object out there that we can think and understand The Real is the place we stand it is where we think from Crucially non philosophy understands philosophy itself to be

performative It enacts modes of thinking that do not dominate the material of thought and do not capture the Real in concepts Philosophy is mutated by its performances and performances themselves think are modes of theory What happens when we bring philosophy art and performance together without hierarchy How can they get inside and change one another The thinkers in this collection answer these pressing questions **A New Light of Mysticism.
