Sixty years of Swedish computational lexicography Dana Dannélls,Kristian Blensenius,Lars Borin,2025-06-02 Swedish computational lexicography has a long history at the University of Gothenburg both in its primary role as a central aspect of the scientific study of vocabulary and also as an infrastructural component for conducting research based on language data Starting in the 1960s the Språkdata research group pioneered corpus supported lexicography for Swedish forming the basis for successive editions of two main descriptive dictionaries of contemporary Swedish SAOL and SO Language technological lexical resources for Swedish have been developed by the research unit research infrastructure Språkbanken Text since the turn of the millennium most recently in the framework of the Swedish FrameNet initiative After two decades of separation these two largely mutually independently developed strands of computational lexicography have now joined forces under the umbrella of Språkbanken's lexical research infrastructure to advance the field technically methodologically and scientifically The result is a vibrant and multifaceted research environment intertwined with and supported by a closely integrated cutting edge computational infrastructure for working with lexical data

Lärobok i svenska språket Elias Wessén,1919 [The Nordic Languages](#)

Oskar Bandle,Lennart Elmevik,Gun Widmark,2002 Annotation This handbook is conceived as a comprehensive history of the North Germanic languages from the oldest times up to the present day Whereas most of the traditional presentations of Nordic language history are confined to individual languages and often concentrate on purely linguistic data the present work covers the history of all Nordic languages in its totality embedded in a broad culture historical context The Nordic languages are described both individually and in their mutual dependence as well as in relation to the neighboring non Nordic languages The handbook is not tied to a particular methodology but keeps in principle to a pronounced methodological pluralism encompassing all aspects of actual methodology Moreover it combines diachronic with synchronic systematic aspects longitudinal sections with cross sections periods such as Old Norse transition from Old Norse to Early Modern Nordic Early Modern Nordic 1550 1800 and so on The description of Nordic language history is built upon a comprehensive collection of linguistic data it consists of more than 200 articles written by a multitude of authors from Scandinavian and German and English speaking countries The organization of the handbook combines a central part on the detailed chronological developments and some chapters of a more general character chapters on theory and methodology in the beginning and on overlapping spatio temporal topics in the end **Årskatalog för svenska bokhandeln** ,1929
