Oregon Shipwrecks:

Oregon Shipwrecks Don B. Marshall, 1984 **Shipwrecks of the Pacific Northwest** Maritime Archaeological Society, 2020-03-01 **SUBMERGED STORIES FROM THE GRAVEYARD OF THE PACIFIC** Over the past 350 years an untold number of ships have met their end along the northern Oregon and southern Washington coasts. Shipwrecks of the Pacific Northwest investigates some of the most compelling historic shipwrecks from the infamous to the nearly forgotten. Explore a handful of these vessels fated to have their final resting place along 150 miles of the rugged Northwest coastline including near the dangerous mouth of the Columbia River. Combining archaeological analysis and new research this unique collection uncovers the tales of peril, tragedy and heroism along with the tangible legacies and an exploration of what remains.

Shipwrecks of Curry County H.S. Contino, 2017-07-17 Historically mariners considered the Oregon coast one of the most dangerous in the world. In 1852 explorers discovered gold in the rivers and along the beaches in Curry County which is located in the southwestern corner of the state. Subsequent settlement concentrated on the coast. With few roads water transportation was crucial for early settlers. The area contained many potential dangers to ships including unpredictable weather, frequent fog and submerged rocks and reefs. There have been many shipwrecks in the area like that of the tanker Larry Doheny which was torpedoed by a Japanese submarine during World War II. Curry County is home to Cape Blanco the second most westerly point in the continental United States and Port Orford the only open water port on the Oregon coast and one of only six dolly ports in the world. Modern technology and port improvements have reduced the number of shipwrecks but accidents still occur.

Encyclopedia of Civil War Shipwrecks W. Craig Gaines, 2008-04 On the evening of February 2, 1864 Confederate Commander John Taylor Wood led 250 sailors in two launches and twelve boats to capture the USS *Underwriter* a side wheel steam gunboat anchored on the Neuse River near New Bern, North Carolina. During the ensuing fifteen minute battle nine Union crewmen lost their lives, twenty were wounded and twenty six fell into enemy hands. Six Confederates were captured and several wounded as they stripped the vessel, set it ablaze and blew it up while under fire from Union held Fort Anderson. The thrilling story of USS *Underwriter* is one of many involving the numerous shipwrecks that occupy the waters of Civil War history. Many years in the making, W. Craig Gaines's *Encyclopedia of Civil War Shipwrecks* is the definitive account of more than 2,000 of these American Civil War period sunken ships. From Alabama's USS *Althea* a Union steam tug lost while removing a Confederate torpedo in the Blakely River to Wisconsin's Berlin City a Union side wheel steamer stranded in Oshkosh. Gaines provides detailed information about each vessel including its final location, type, dimensions, tonnage, crew size, armament, origin, registry, Union, Confederate, United States or other country casualties, circumstances of loss, salvage operations and the sources of his findings. Organized alphabetically by geographical location, state, country or body of water, the book also includes a number of maps providing the approximate locations of many of the wrecks ranging from the Americas to Europe, the Arctic Ocean and the Indian Ocean. Also noted are more than forty

shipwrecks whose locations are in question Since the 1960s the underwater access afforded by SCUBA gear has allowed divers historians treasure hunters and archaeologists to discover and explore many of the American Civil War related shipwrecks In a remarkable feat of historical detective work Gaines scoured countless sources from government and official records to sports diver and treasure hunting magazines and cross indexes his compilation by each vessel s various names and nicknames throughout its career An essential reference work for Civil War scholars and buffs archaeologists divers and aficionados of naval history Encyclopedia of Civil War Shipwrecks revives and preserves for posterity the little known stories of these intriguing historical artifacts *Disasters of Oregon* ,1941 **Lost Treasure Ships of the Oregon Coast**

Theodore Schellhase,2009 Explore the early history of Oregon by delving into the journals of explorers Alexander Mackenzie David Thompson and Lewis Clark Read about journeys into Oregon and first encounters with Native Americans on the coast Hear legends of white winged ships that first came to these shores and eyewitness accounts of survivors from shipwrecks who intermarried with local tribes Return to the days of treasure ships and their mysteries along the Oregon coast

Shipwrecks of the Southern Oregon Coast ,198? *GhostWest* Ann Ronald,2005-02-03 Our sense of place is permeated by ghosts from the past In GhostWest Ann Ronald takes the reader to historical sites where something once happened Using the metaphor of hauntings she reflects on how western history literature and lore continue to shape our visceral impressions of these sites In chapters both lyrical and thoughtful passionate and humorous GhostWest covers sites in seventeen western states including the Little Bighorn Battlefield in Montana Willa Cather s Nebraska prairies and the Murrah Building bombing site in Oklahoma Through these settings and their phantoms the author mulls questions of why we find such ambience and artifacts so compelling Volume 7 in the Literature of the American West series **Early Navigation in the Asia-Pacific**

Region Chunming Wu,2016-09-06 This book presents the proceedings of the international academic workshop on Early Navigation in the Asia Pacific Region A Maritime Archaeological Perspective held from June 21 23 2013 at Harvard University campus and organized by Harvard Yenching Institute It includes high quality papers focusing on the historical shipwrecks investigated by underwater archaeologists from Eastern Asian including southern China Vietnam Thailand the Philippines Indonesia and Malaysia and North America including California Oregon and Washington in the US as well as Mexico These investigations reveal the history of the early pan Pacific navigation and maritime globalization from the 16th to the 18th century covering the background and formation concept and practice as well as the results and influence of this early globalization and global economy emphasizing the maritime archaeological evidence of Spanish exploration of transportation between East Asia and North America The book provides an excellent opportunity for maritime archaeologists from both sides of the Pacific to share the latest findings and new developments in maritime archaeological exploration It discusses 16 18th century nautical trade and maritime cultural history and provides a comprehensive overview of research work in the Asia Pacific region Historic Tales of the Oregon Coast Gary Hayes,2026-03-24 The story of one of America s

greatest natural treasures Once an unknown spot on the world map the Oregon Coast has been the site of both inspiration and tragedy over the course of its history A driving force of America's Western migration the rise of logging and fishing industries that sustained new settlers also contributed to the devastating decline of Native people and their way of life The industrial age brought steamboats railroads and roads for automobiles to the area and along with them a blossoming tourism industry Preservation efforts rose to the forefront as visitors and locals sought to save the unique facets of the coast for future generations Join author Gary Hayes as he explores the maritime heritage of one of the most spectacular places on earth the Oregon Coast

Formation Processes of Maritime Archaeological Landscapes Alicia Caporaso,2017-01-05

Research into the anthropogenic and taphonomic processes that affect the formation of maritime archaeological resources has grown significantly over the last decade in both theory and the analysis of specific sites and associated material culture The addition of interdisciplinary inquiry investigative techniques and analytical modeling from fields such as engineering oceanography and marine biology have increased our ability to trace the unique pathways through which archaeological sites progress from initial deposition to the present yet can also link individual sites into an integrated socio environmental maritime landscape This edited volume presents a global perspective of current research in maritime archaeological landscape formation processes In addition to classically considered submerged material culture and geography or those that can be accessed by traditional underwater methodology case studies include less often considered sites and landscapes These landscapes for example require archaeologists to use geophysical marine survey equipment to characterize extensive areas of the seafloor or go above the surface to access maritime archaeological resources that have received less scholarly attention
