The Organism as an Adaptive Control System John M. Reiner,1968

**The Organism as an Adaptive Control System**

John M. Reiner,1968 Posthumanity Brian Cooney,2004-05-26 In Posthumanity Brian Cooney examines this philosophically turbulent era in which the products of our latest technology will include a new kind of reality new kinds of minds and new sorts of bodies for those minds Until now major technological innovations have always had an important effect on human history But our newest technology will alter the human animal to such an extent that the next era could end up being posthuman Posthumanity introduces key concepts in philosophy in a creative and provocative manner guaranteed to engage the attention of first year students and other newcomers to the study of philosophy Using examples from films television and science fiction Cooney advances a fascinating and original argument about technology while simultaneously acquainting students with the foundations of philosophy

**A Hylomorphic Theory of Mind**

Brian Cooney,1991 This book presents a contemporary application of Aristotle s metaphysical concepts to the domains of biology and psychobiology Professor Cooney reconstructs the form matter or hylomorphic analysis of organisms and mental functions by linking Aristotle s concept of form to that of information in biological control systems The resulting hylomorphic theory challenges the orthodoxy of contemporary philosophy by offering an alternative to both materialism and dualism Professor Cooney makes his book accessible to a wide audience by providing clear digests of the scientific information and philosophical issues relevant to his arguments
