Gailey, 2016-03-31 First published in 1982 Routledge is an imprint of Taylor Francis an informa company **The Great Upheaval** Judith A. Byfield, 2021-07-09 This social and intellectual history of women's political activism in postwar Nigeria reveals the importance of gender to the study of nationalism and poses new questions about Nigeria's colonial past and independent future In the years following World War II the women of Abeokuta Nigeria staged a successful tax revolt that led to the formation first of the Abeokuta Women's Union and then of Nigeria's first national women's organization the Nigerian Women's Union in 1949 These organizations became central to a new political vision a way for women across Nigeria to define their interests desires and needs while fulfilling the obligations and responsibilities of citizenship In *The Great Upheaval* Judith A Byfield has crafted a finely textured social and intellectual history of gender and nation making that not only tells a story of women's postwar activism but also grounds it in a nuanced account of the complex tax system that generated the upheaval Byfield captures the dynamism of women's political engagement in Nigeria's postwar period and illuminates the centrality of gender to the study of nationalism She thus offers new lines of inquiry into the late colonial era and its consequences for the future Nigerian state Ultimately she challenges readers to problematize the collapse of her female subjects' greatest aspiration universal franchise when the country achieved independence in 1960 *How Colonialism Preempted Modernity in Africa* Olúfémi Táíwò, 2010-01-11 Based on the idea that Africa was already becoming modern before being derailed by colonialism the author insists that Africa can get back on track and advocates a renewed engagement with modernity Tools toward shaping a positive future for Africa are immigration capitalism democracy and globalization **Nigeria and the Death of Liberal England** Peter J. Yearwood, 2018-07-18 This book shows how a stormy parliamentary debate over the sale of German properties in Nigeria on 8 November 1916 began the process which brought down Asquith and made Lloyd George prime minister The colonial secretary Bonar Law who was also leader of the Conservative Party wanted neutral firms to bid Usually presented as a policy imposed on him by doctrinaire Liberal free traders it was in fact that of the colonial government which hoped that encouraging foreign competition would prevent the Nigerian export economy becoming controlled by a ring of mainly Liverpool firms Seeing itself as the defender of Nigerian interests the Colonial Office endorsed this The large British companies got up an agitation which was taken over by Sir Edward Carson the one significant opposition politician as part of his attack on supposed German influence in high places Law counter attacked by arguing that a supposedly patriotic cause masked the greed of an emergent cartel He succeeded because smaller British and African firms trying to break into the now profitable produce export trade had already painted that picture By defeating Carson in the debate Law became again an effective party leader who hoped to re invigorate the coalition but instead found himself working with Lloyd George to

sideline Asquith Based on underused sources and overturning established interpretations the book situates the debate within the context of the development of the Nigerian economy the conflicts between the major firms the role of oils and fats in wartime and the emergence of Nigerian nationalism

Muslim-Christian Dialogue in Post-Colonial Northern Nigeria M. Iwuchukwu, 2013-10-02 Iwuchukwu examines the perennial conflicts in different parts of northern Nigeria and why they are popularly called Muslim Christian clashes Specifically he examines the immediate and remote factors that are responsible for the conflicts

A Sacred Trust Michael D Callahan, 2004-09-29 The second volume explains how the League of Nations mandates system fused two of the predominant and compelling global forces of the twentieth century imperialism and Wilsonian internationalism After the First World War Britain and France administered most of Germany's former tropical African colonies as mandates under the supervision of the League as a sacred trust of civilization This system of international trusteeship changed British and French rule in Africa In short mandates were not colonies Mandates meant less militarism more commercial equality a greater emphasis on the interests of Africans and an end to the extension of European national sovereignty over colonized peoples Accountability to the League also required the British and French to reconsider traditional economic strategic and ideological assumptions about their empires In the process the sacred trust sowed the seeds of self doubt about the very purpose and future of European imperialism The mandates system continued to represent a genuine internationalisation and reformation of colonialism and had long term economic political and cultural consequences for Africans and Europeans within the mandated territories Despite the Depression repeated Anglo French foreign policy failures growing humiliations for Geneva and war in Africa and Europe the principles and practices of international trusteeship proved persistent Mandates demonstrated the relevance of international law the importance of the League of Nations and the impact of Wilsonian principles on international relations and European imperialism
