Lunaria Day Journal 2004:

Prognostication in the Medieval World Matthias Heiduk, Klaus Herbers, Hans-Christian Lehner, 2020-11-09 Two opposing views of the future in the Middle Ages dominate recent historical scholarship According to one opinion medieval societies were expecting the near end of the world and therefore had no concept of the future According to the other opinion the expectation of the near end created a drive to change the world for the better and thus for innovation Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will the prodigies of nature and the patterns of time That proves on the one hand the constant human uncertainty facing the contingencies of the future On the other hand it demonstrates the firm belief during the Middle Ages in a future which could be shaped and even manipulated The handbook provides the first overview of current historical research on medieval prognostication It considers the entangled influences and transmissions between Christian Jewish Islamic and non monotheistic societies during the period from a wide range of perspectives An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview *Cities, Migration, and Governance* Felicitas Hillmann, Michael Samers, 2023-07-31 This volume examines how cities migration and urban governance are intertwined Questioning and reworking the conceptual reliance on scales and levels it draws on examples from both Europe and North America to conceptualize the variety of cities as re active and pro active within global and socio territorial dynamics The book covers the governance of the myriad dimensions of urban life such as work housing racism Islamophobia xenophobia the arts leisure and other cultural practices political participation social movements and contentious politics in North American and European cities While cities might implement integration policies the chapters do not necessarily assume that migrants live with the telos of integration but rather conduct their lives as anyone else would making meaning and voicing concerns under often difficult material conditions strewn with the markers of race religion gender sexuality age and often illegality The volume highlights four arguments themes or contributions addressed by one or more of the chapters how demographic change is prompting more pro active urban governance responses in many cities in the 21st century how the sheer complexity of migration in the 21st century is shaping the participation of citizen civil society actors the growing role of new private actors in the realm of urban governance and the participation of migrants themselves in this governance The book reminds us that we are confronted with a spectrum of urban governance strategies ranging from re active cities to pro active and welcoming cities Both timely and relevant this book collects the work of well known scholars in the field of migration and urban studies The chapters in this book were originally published as a special issue of *Geographical Review* *Forced Migration, Masculinities, and Vulnerabilities in the Mediterranean* Marco Palillo, 2025-10-31 *Forced Migration Masculinities and Vulnerabilities in the Mediterranean* explores the role of intersectional power hierarchies and the social reproduction of vulnerability in shaping forced migrant men's embodied realities of suffering along the Central

Mediterranean migration route CMR which connects sub Saharan Africa to Sicily via Libya Based on life history interviews and observational research collected from sub Saharan international protection holders and seekers in Sicily the book expands our understanding of the violence migration nexus by exploring refugee men s gendered mobilities Participants narratives of gendered embodiment within the trans Mediterranean illegality industry are used to shed light on the violence continuum produced by their marginalised position within locally salient hierarchies of masculinities across different migration stages Following the ethnographic encounter between the researcher and participants in the racialised landscape of the Mediterranean migration crisis the performance of competent manhood emerges as a crucial narrative site where forced migrant men can contest their protracted experiences of marginalisation and reclaim subjectivity Overall the book views the relationships between forced migration masculinities and vulnerabilities as a locus which reveals participants neglected social welfare needs and demands in postcolonial Europe Forced Migration Masculinities and Vulnerabilities in the Mediterranean appeals to those with research interests in migration gender sexuality postcoloniality race ethnicity European studies and humanitarianism

Apennine Crossings Nick Havely, 2024-07-12 The Apennines are Italy exclaimed The Examiner two centuries ago yet this unique region and its striking literary and cultural connections are underappreciated in the English speaking world Apennine Crossings Travellers on the Edge of Tuscany links a twenty first century journey in the mountains of Northern Italy to past writers routes and travellers It follows the modern long distance walking trail of the Great Apennine Excursion whilst moving back and forth in time from the Middle Ages to World War Two and from the journeys of pilgrims merchants and tourists to those of soldiers partisans and poets Stories of past travellers in the region continually intersect with a contemporary account of a walk across the ridge of the Northern Apennines Alongside Nick Havely s present day narrator and traveller the cast of characters includes major writers and poets such as Dante Montaigne Goethe Shelley and Stendhal together with a multitude of less well known figures whose journeys experiences and responses cast new light on a

landscape that is close to yet remote from the sites typically visited by modern travellers to Italy. Havely draws these earlier travellers' stories from a wide range of published and unpublished sources such as letters, journals, memoirs, poems and interviews. Together they illustrate several significant themes: the histories of mountain passes, remote lakes and ancient sanctuaries; perceptions of the mountains; the social and religious culture of the Northern Apennines; the preoccupations of literary tourism; the impact of campaigns and conflict during World War Two and the effects of depopulation and deforestation. The Apennine region features in its full literary, historical and cultural richness. Included are twenty-six illustrations with maps for the whole route and for the sections covered by each of the book's seven chapters. **European**

Porcelain in The Metropolitan Museum of Art Jeffrey Munger, Elizabeth Sullivan, 2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe. Its pure white color, translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware. In response, European ceramic factories set out to discover the process of producing porcelain in the Chinese manner, with significant artistic, technical and commercial ramifications for Britain and the Continent. Indeed, not only artisans but kings, noble patrons and entrepreneurs all joined in the quest, hoping to gain both prestige and profit from the enterprises they established. This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production. Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts. Among the wide range of porcelains selected are rare blue and white wares and figures from Italy; superb examples from the Meissen factory in Germany and the Sèvres factory in France; and ceramics produced by leading British eighteenth century artisans. Taken together, they reveal why the Metropolitan Museum's holdings in this field are among the finest in the world. p 1

Syrische Astrologie und das Syrische Medizinbuch Stefanie Rudolf, 2018-08-21 Erstmals wird eine Gesamtschau der Astrologie in der syrisch-orthodoxen Literatur geboten. Die Frage, ob alte mesopotamische oder gyptische Vorläufer in dieser Literatur aufgegangen sind, begleitet die historische Einführung in Astrologie und Divination. Auch wenn die Astrologie als *scientia non grata* für die Orthodoxie ein vermeintliches Schattendasein führen musste, ist sie in den verschiedensten Textgattungen der syrischen Literatur zu finden. Die bedeutendste Quelle für diese Texte, das Syrische Medizinbuch, ist als Kompendium in mehrfachem Sinne fruchtbar. Zum einen wird durch die kompilative Gestaltung der Gebrauch solcher Texte, die im Grunde Anweisungen darstellen, deutlich, die Bezüge zu anderen Wissensbereichen wie der Landwirtschaft, der

Astronomie Kalender und Heilkunde bezeugen ihre nahezu universellen Anwendungsbereiche Zum anderen konnte die Analyse des Materials bisher nicht identifizierte Texte zu Tage fördern darunter ein Auszug aus den hippokratischen Aphorismen und den Geoponica in syrischer Übersetzung eine bisher unbekannte Rezension einer syrischen Kosmologie von Pseudo Dionysius Areopagites und zahlreiche Intertexte in syrischer griechischer arabischer und mandäischer Sprache
