L'univers Des Bronzes:

L'univers des bronzes et des fontes ornementales Yves Devaux, 1978-01-01T00:00:00+01:00 Cet ouvrage est une rédition numérique d'un livre paru au XXe siècle désormais indisponible dans son format d'origine **Zinc Sculpture in America, 1850-1950** Carol A. Grissom, 2009 Introduced in the United States as a new material for statuary in the mid nineteenth century zinc has properties that allowed replication at low cost. It was used to produce modestly priced serial sculpture displayed throughout the nation on fountains, public monuments and war memorials. Imitative finishes created the illusion of more costly bronze, stone or polychrome wood. This first comprehensive overview of American zinc sculpture is interdisciplinary, engaging aspects of art history, popular culture, local history, technology and art conservation. Included is a generously illustrated catalogue presenting more than eight hundred statues organized by type: trade figures and Indians, gods and goddesses, fountain figures, animals, famous men, military figures, firemen, cemetery memorials and religious subjects. The compilation of data on these statues will be valuable to scholars filling the current void in research libraries. The author's experience as a conservator will also make the an essential resource for historic preservationists seeking to repair statues now damaged by years of outdoor exposure. This book has 555 illustrations, 354 of which are in color. Carol Grissom is Senior Objects Conservator at the Smithsonian's Museum Conservation Institute. *Early Bronze Age Goods Exchange in the Southern Levant* Ianir Milevski, 2016-09-17 The Southern Levant was a thriving centre of religious and cultural exchange during the Bronze Age. Early Bronze Age Goods Exchange in the Southern Levant provides an overview of the sources and distribution of commodities. The book presents a study of key production centres and the process of purchase and exchange. The book establishes a theoretical framework based in political economy, ethnoarchaeology and economic anthropology for understanding the exchange of commodities in a precapitalist society. Early Bronze Age Goods Exchange in the Southern Levant is unique in presenting archaeological sources and prehistoric economics through modern, notably Marxist, theories of human development. **The Wilkes Collection of Nineteenth-century French Sculpture** Nicholas Penny, 2019
