L'étincelle et l'Infini. L'origine et la raison de toutes les consciences. Bruno Del Medico, 2025-10-27 Imaginons un fil invisible qui traverse les millénaires tissant les premiers mythes de l'humanité les intuitions des philosophes antiques les révélations des ascètes orientaux les découvertes de la science moderne et les hypothèses audacieuses de la physique quantique Ce livre invite le lecteur le suivre chapitre après chapitre au-delà des frontières du savoir établi pour découvrir s'il existe une conscience unique qui englobe tout ce qui est y compris nous-mêmes Ce n'est pas seulement un voyage intellectuel c'est un pèlerinage entre questions éternelles et réponses provisoires entre chiffres et poésie entre laboratoire et temple Des écoles grecques la Silicon Valley des sutras bouddhistes aux paradigmes des neurosciences des réflexions de Spinoza aux théories de l'information intégrée chaque page de ce livre guidera le lecteur vers une seule idée bouleversante et si la conscience n'était pas un produit de l'esprit mais le tissu même de l'univers Le lecteur découvrira des hypothèses révolutionnaires comme un univers qui pense un champ cosmique qui relie chaque particule ou une réalité simulée dont l'esprit pourrait être la fois spectateur et programmeur Des expériences audacieuses seront explorées des mesures les plus sophistiquées de la conscience aux études apparemment hérétiques sur la télépathie et la psychokinésie jusqu'à un nouvel horizon où l'intelligence artificielle pourrait devenir consciente Mais au-delà des données et des théories il s'agit d'une invitation réflexive sur le sens profond de l'être qu'est-ce que cela change de savoir que nous pourrions faire partie d'une intelligence infinie Comment cette prise de conscience transformerait-elle notre éthique notre relation à la Terre notre mode de vie Avec une approche qui combine des recherches précises une narration captivante et un regard capable de traverser les disciplines et les cultures le livre s'adresse aussi bien aux curieux de science qu'aux chercheurs spirituels C'est un pont entre des mondes apparemment loignés construit pour faire dialoguer le langage de l'équation et celui de la méditation Ouvrir ces pages c'est accepter un défi remettre en question la séparation entre soi et univers entrer en résonance avec une vérité peut-être aussi ancienne que le temps lui-même et en ressortir avec une vision plus large de ce que nous sommes et de ce que nous pourrions

Le mensonge Kate Averis, Matthew Moran, 2010-09-13 This collection of essays considers the political social literary and artistic impact of the pervasive dichotomy of truth and lies in the context of French society and culture A fundamental element of our social existence the notion of le mensonge underpins how we participate in and respond to all aspects of society from the political process to the capacity of art literature and other aesthetic forms to fulfill a representative function This book explores the ways in which French society and culture is regulated by the overriding oppositional structure of truth and lies and the impact this has on both collective and individual existence The theme brings together research from diverse disciplines of the Humanities from political science to literature film music and visual arts in a work that will be of great relevance to a wide range of students and researchers alike As such the theme serves as a means of gaining an insight into the range and scope of research currently being conducted in French studies The book will be useful as a support text for a range of academic courses including those in the fields of cultural studies literary studies political studies and sociology On a larger scale it posits the theme's potential to develop as an independent area of study and offers a starting point for future academic study devoted to the idea of le mensonge
