Prentice Hall Library David Henry Hwang, David Henry Hwang's play "M. Butterfly" - A Fantasy of the Western Male Babette Treptow, 2012-01-26 Seminar paper from the year 2011 in the subject American Studies Literature grade 1 7 Humboldt University of Berlin Institut f r Anglistik und Amerikanistik course Gender Sexuality Race and Class in Contemporary American Drama language English abstract 1

Introduction Modern day drama is often considered to be an effective means of expressing criticism Numerous contemporary playwrights experiment freely with dramatic conventions and most works overtly demonstrate to be a piece of performance so that the audience is alerted not to view reality but a play Thus the boundaries between authenticity the natural and role playing the artificial are blurred in order to address the construction of social and political identity Saddik 2007 13 David Henry Hwang s play M Butterfly 1988 can be regarded as one representative of that type of contemporary dramatic pieces It demonstrates the construction of identity around the politics of gender sexuality power and race In the course of the drama the biological male character Song Liling constructs a female Oriental fantasy for the French diplomat Rene Gallimard By performing her<sup>1</sup> race and gender according to Gallimard s ideas about the Oriental Song is able to disguise her male sex For almost two decades the French diplomat is not aware of the fact that his partner is not a woman but a man cf Hwang 1988 94ff The drama M Butterfly the first Asian American play to be produced on Broadway has been introduced in the course of last summer semester s seminar Gender Sexuality Race and Class in Contemporary American Drama It aroused my interest not only due to its witty and provocative style but also because of the drama s fascinating and powerful but rather bizarre story about the relationship of a Western man and a perceived Chinese woman I could not understand how Gallimard neither was nor in the course of all their years together became aware of his partner s true sex Therefore the term paper will have a closer look at Song s and Rene s affair in order to figure out how the Chinese opera star is able to create a masquerade she

can preserve for so many years In this sense the paper will deal with the following questions How can Song deceive Gallimard for almost twenty years How can she hide her true sex and hence begin an affair with the diplomat What role do both protagonists racial backgrounds play with regard to this What fascinates Gallimard about Song in the first place And in this sense What effect does Song's Oriental identity have on Gallimard's perception The Columbia Guide to Asian American Literature Since 1945 Guiyou Huang,2006-08-08 The Columbia Guide to Asian American Literature Since 1945

**Performing Asian Transnationalisms** Amanda Rogers,2014-09-19 This book makes a significant contribution to interdisciplinary engagements between Theatre Studies and Cultural Geography in its analysis of how theatre articulates transnational geographies of Asian culture and identity Deploying a geographical approach to transnational culture Rogers analyses the cross border relationships that exist within and between Asian American British East Asian and South East Asian theatres investigating the effect of transnationalism on the construction of identity the development of creative praxis and the reception of works in different social fields This book therefore examines how practitioners engage with one another across borders and details the cross cultural performances creative opportunities and political alliances that result By viewing ethnic minority theatres as part of global rather than simply national cultural fields Rogers argues that transnational relationships take multiple forms and have varying impetuses that cannot always be equated to diasporic longing for a homeland or as strategically motivated for economic gain This argument is developed through a series of chapters that examine how different transnational spatialities are produced and re-worked through the practice of theatre making drawing upon an analysis of rehearsals performances festivals and semi structured interviews with practitioners The book extends existing discussions of performance and globalization particularly through its focus on the multiplicity of transnational spatiality and the networks between English language Asian theatres Its analysis of spatially extensive relations also contributes to an emerging body of research on creative geographies by situating theatrical praxis in relation to cross border flows Performing Asian Transnationalisms demonstrates how performances reflect and rework conventional transnational
