**Representations of Macau's Gaming Industry in Greater China** Yuxi Wu, 2023-01-01 This book is the first linguistic study that combines CL and CDA to compare the media representations of Macau's gaming industry in English language newspapers published in Mainland China, Hong Kong, and Macau. An analytical framework based on the notion of the extended units of meaning of a lexical item Sinclair 2004 is adopted to examine the ideological stances regarding Macau's gaming industry among three English language newspapers published in the three Chinese territories mentioned above by comparing the patterns of co-selection of shared and unique words and phraseologies. The book's findings confirm that the news media in these three territories differ in their ideological stances. Moreover, the book offers readers a fresh perspective on Macau by exploring how the region and its gaming industry are represented in three news article corpora. Thus, it provides unique insights into the similarities and differences among these three territories. Further, the research suggests that the methods adopted in this book can be replicated to examine and compare the news and political discourses in a variety of contexts. Accordingly, the book represents a valuable resource not only for students majoring in linguistics, media studies, communication, journalism, etc., but also for researchers in the fields of corpus linguistics, critical discourse analysis, etc.

*One Country, Two Systems, Three Legal Orders - Perspectives of Evolution* Jorge Oliveira, Paulo Cardinal, 2009-07-21 One Country Two Systems Three Legal Orders Perspectives of Evolution Essays on Macau's Autonomy after the Resumption of Sovereignty by China can be said in a short preamble like manner to be a book that provides a comprehensive look at several issues regarding public law that arise from or correlate with the Chinese apex motto for reunification One Country Two Systems and its implementation in Macau and Hong Kong. Noble and contemporary themes such as autonomy models and fundamental rights are thoroughly approached with a multilayered analysis encompassing both Western and Chinese views and an extensive comparative law acquis is also brought forward. Furthermore, relevant issues on international law, criminal law, and historical and comparative evolutions and interactions of different legal systems are laid down in this panoramic yet comprehensive book. One cannot but underline the presence in the many approaches and comments of a certain aura of a modern Kantian cosmopolitanism revisitation throughout the work especially when dealing with the cardinal principle of One Country Two Systems which enabled a peaceful and integral reunification ex vi international law the Joint Declarations that ended an external and distant control *Macau 20 Years after the Handover* Meng U Ieong, 2020-05-25 This book outlines the major social and political changes in the city of Macau during its first 20 years under the One Country Two Systems

arrangement with Mainland China Despite the long standing image of Macau as Asia's Las Vegas it is a city that has changed a great deal since its return to China Equally despite this return it retains a unique social economic and political character distinct both from the Mainland of China and from its larger neighbour Hong Kong The chapters in this book examine the detail of this uniqueness from a range of perspectives including the gambling industry police society relations media usage patterns and protest movements Analysing the state of affairs 20 years after the city's return to China they also attempt to anticipate its future trajectory This is a valuable guide for scholars of Asian and particularly Chinese urban politics that will be of interest to academics and students looking to better understand the particularities of Macau Macau History and Society Zhidong Hao,2011-01-01 Macau History and Society illuminates the early Portuguese maritime exploration along China's south coast political and economic development in Macau and current social problems The book makes significant contributions to a political sociology of Macau emphasizing how different civilizations and cultures interacted with one another and explores how a new Macau identity can be constructed Democratization has been a never ending process in Macau since the 1500's Macau's experience indicates that sovereignty has been shared rather than exclusive Although civilizations and cultures do clash they also cooperate But the Macau model is deeply flawed Hao contends that Macau needs to build a new multicultural identity and a cosmopolitan political and economic identity Country by Country ,2003
