**Reforming Legal Education** David M. Moss, Debra Moss Curtis, 2012-07-19 This book explores curriculum reform in law schools showcasing successful efforts and providing a framework for continuous improvement It serves as a key resource for faculty and staff offering case studies and recommendations for evidence based reform in legal education Civil Justice, Privatization, and Democracy Trevor C.W. Farrow, 2014-04-30 Privatization is occurring throughout the public justice system including courts tribunals and state sanctioned private dispute resolution regimes Driven by a widespread ethos of efficiency based civil justice reform privatization claims to decrease costs increase speed and improve access to the tools of justice But it may also lead to procedural unfairness power imbalances and the breakdown of our systems of democratic governance Civil Justice Privatization and Democracy demonstrates the urgent need to publicize politicize debate and ultimately temper these moves towards privatized justice Written by Trevor C W Farrow a former litigation lawyer and current Chair of the Canadian Forum on Civil Justice Civil Justice Privatization and Democracy does more than just bear witness to the privatization initiatives that define how we think about and resolve almost all non criminal disputes It articulates the costs and benefits of these privatizing initiatives particularly their potential negative impacts on the way we regulate ourselves in modern democracies and it makes recommendations for future civil justice practice and reform

**Reaffirming Legal Ethics** Kieran Tranter, Francesca Bartlett, Lillian Corbin, Michael Robertson, Reid Mortensen, 2010-07-02 It has been over thirty years since the founding crises that birthed legal ethics as both a field of study and a discrete field of law In that time thinking about the ethical dimension of legal practice has taken several turns from justifications of zealous advocacy to questions of process and

connections to specifically legal values to more recently consideration of legal conduct as part of a wider field of virtue. Parallel to this dynamism of thought there has also been significant changes in how legal professions especially within those that possess a common law heritage have been regulated and the values and conceptions of legitimate conduct that has informed this regulation. This volume represents an opportunity for a comprehensive review of legal ethics as an international movement. Contributors include many of the key participants to the legal ethics field from the United States, United Kingdom, Canada, Australia, New Zealand and South Africa including David Luban and Deborah Rhode as well as many of the recognised emerging thinkers. The theme of the book is taking stock of the last thirty years of legal ethics practice and scholarship and also a forum for new ideas and new thinking regarding the conduct of lawyers and the moral and social responsibility of the legal profession. The contributions also consider the topic of dynamism. Over the last decade significant developments in both the expectations of professional conduct and the regulation of the profession has been experienced in all jurisdictions which has seen traditional and once sacred conceptions of lawyering challenged and re-evaluated. The contributors also look at the theme of affirmation. Within an increasingly complex environment of change and dynamism this volume reaffirms that there is value within the field of legal ethics. That is the project of reflecting on the unique ethical and conduct requirements of lawyering can not be submerged into a broader field of applied philosophy, management or regulatory studies. While this volume does not deny the opportunities that exist for interdisciplinary engagement with philosophy, social science or politics it affirms legal ethics as a legitimate and highly relevant field of inquiry.

*Law School 2.0*, David I. C. Thomson, 2009. Legal education is at a crossroads. As a media saturated generation of students enters law school they find themselves thrust into a fairly backward mode of instruction much of which is over 100 years old. Over those years legal education has resisted many credible reports recommending change, most recently those from the Carnegie Foundation for the Advancement of Teaching and from the Clinical Legal Education Association. Meanwhile the cost of legal education continues to skyrocket with many law students graduating with crushing debt they have difficulty paying back. All of these

factors are likely to reach a crescendo in the next few years setting the stage for a perfect storm out of which can come significant change But legal education has successfully resisted systemic change for many years Given that dubious track record the only way significant change can reasonably be predicted is if something is different this time Fortunately there is something different this time the ubiquity of technology Since the MacCrate report in 1992 the internet has achieved massive growth and a generation of students has grown up with sophisticated and pervasive use of technology in nearly every facet of their lives This book describes how the perfect storm of generational change and the rising cost and criticisms of legal education combined with extraordinary technological developments will change the face of legal education as we know it today Its scope extends from generational changes in our students to pedagogical shifts inside and outside of the classroom to hybrid textbooks all the way to methods of active interactive and hypertextual learning And it describes how this shift can and will better prepare law students for the practice of tomorrow **Wisconsin International Law Journal** ,2006
