

Macedonian Empire

Arthur Mapletoft Curteis

Macedonian Empire:

Alexander the Great Failure John D Grainger,2009-08-11 In this authoritative book John Grainger explores the foundations of Alexander s empire and why it did not survive after his untimely death in 323 BC **The Rise of the Macedonian Empire** Arthur Curteis,2018-04-13 The first two centuries of the Macedonian monarchy covered by the reigns of six kings were a period shrouded in obscurity during which the rising kingdom had enlarged itself at the expense of its neighbors and crossing the Axios had even reached the Strymon This career of conquest had been scarcely arrested by the Persian invasions of Europe Indeed Alexander I son of Amyntas was cunning enough to bow to the storm and while cautiously doing his utmost to befriend the Greeks affected to fall in with Persian ideas as to Macedon being the centre of a great vassal state and thankfully accepted any extension of territory which the Great King might be pleased to give him By these means he gained a footing among the Thracian tribes as far as Mount Haemus while he attained an object by which he set even greater store as a true blooded Hellene for his claims to that title were publicly acknowledged at Olympia and his victories in the Stadium celebrated by the Hellenic Pindar Yet the difficulties of Alexander did not cease but rather increased when danger no longer threatened Greece from the side of Persia He had removed his capital from Aigai to Pydna a step nearer to the Hellenes whom he admired so much But close to Pydna lay Methone an independent Greek city while to the eastward in Chalcidice and as far as the Strymon were numerous Hellenic colonies whose sympathies drew them naturally to the south rather than the west to Hellas not to Macedon and which after the Persian wars recognized in the maritime Athens their natural leader and protectress The Macedonian Empire James R. Ashley,2004-03-19 The Macedonian Empire lasted only 36 years beginning with Philip II s assumption of the throne in 359 B C and ending with the death of his son Alexander the Great in 323 B C In that span the two leaders changed the map in the known world Philip established new tactics that forever ended the highly stylized mode that had characterized Classic Greek warfare and Alexander s superb leadership made the army an unstoppable force This work first examines the 11 great armies and three great navies of the era along with their operations and logistics The primary focus is then on each campaign and significant battle fought by Philip or Alexander detailing how the battles were fought the tactics of the opposing armies and how the Macedonians were able to triumph

By the Spear Ian Worthington,2014 Alexander the Great is arguably one of the best known and most exciting figures from antiquity He waged war as a Homeric hero and lived as one conquering native peoples and territories on a superhuman scale From the time he invaded Asia in 334 to his death in 323 he expanded the Macedonian empire from Greece in the west to Asia Minor the Levant Egypt Central Asia and India Pakistan and Kashmir in the east Although numerous other kings and generals forged empires Alexander produced an empire that was without parallel if only for a moment And yet Alexander could not have achieved what he did without the accomplishments of his father Philip II r 359 336 Long after Philip s death and Alexander s invasion of Asia Philip remained a constant presence in Alexander s life and decisions It was Philip who truly

changed the course of Macedonian history transforming a weak disunited and economically backward kingdom into a military powerhouse A warrior king par excellence Philip left Alexander with the greatest army in the Greek world a centralized monarchy economic prosperity and a plan to invade Asia For the first time By the Spear offers an exhilarating military narrative of the reigns of these two larger than life figures in one volume Ian Worthington give full breadth to the careers of father and son showing how Philip was the architect of the Macedonian empire which reached its zenith under Alexander only to disintegrate upon his death By the Spear also discusses how armies in this period were used as avatars of social and cultural change and how the problems Alexander faced in dealing with a multi cultural subject population the strategies he took to what might be called nation building shed light on contemporary problems in culturally dissimilar regions of the world The end result is a gripping account of the role these kings played in creating a vast empire and of the enduring legacy they left behind By the Spear s twofold approach of military narrative and social and cultural influence will set it apart from all previous histories of Philip and Alexander

Rise of the Macedonian Empire Arthur Mapletoft Curteis,1908 Discusses many inventions from earliest times to the twentieth century providing information on how they work and when they were first invented

Rise of the Macedonian Empire Arthur Mapletoft Curteis,1911

The Rise of the Macedonian Empire Arthur M. Curteis,2015-12-05 In Greek mythology Makedon is the eponymous hero of Macedonia and is mentioned in Hesiod s Catalogue of Women The first historical mention of the Macedonians occurs in the works of Herodotus during the mid 5th century BC The book s seventeen chapters cover the history of Macedonia from pre Philip II Alexander s father until Alexander s death Highlights include the many battles of Alexander with Persia the sack of Persepolis and the death of Darius the founding of Alexandria and Alexander s conquest of India
