Machine Politics: Chicago Model Harold Foote Gosnell, 1968 *Machine Politics* Harold Foote Gosnell, 2017-11-06

Excerpt from *Machine Politics Chicago Model* If time and money had permitted the present study would have been entirely comparative Wherever possible an attempt has been made to show how typical of other cities the patterns of political behavior are in Chicago Fortunately in the past ten years a number of studies of the party politics of other cities has appeared and in so far as these studies yielded comparable data they have been compared with the findings reached in Chicago Peel's study of New York City political clubs Salter's and Kurtzman's quite different analyses of Philadelphia district leaders and Mosher's research on upstate committee men in New York State have all furnished the basis of significant comparisons However none of these studies of other cities purports to cover as broad a field as the present analysis The present study not only attempts to examine the party machine and the characteristics of the party workers but also presents an analysis of voting behavior in candidate and proposition elections Among the influences studied are the circulations of the important daily newspapers in Chicago To the writer's knowledge in no other city has so exhaustive a study been made of the social and economic background of voting behavior The present analysis is a highly condensed presentation of the main findings of a number of studies Preliminary manuscripts on the operation of the referendum in Chicago and on the 19928 committeemen are each longer than this book itself The case stories of ward and precinct committeemen could be amplified and multiplied Records were obtained regarding one hundred and seventy five ward leaders and nine hundred precinct captains As far as possible the materials presented are the most representative Those who are interested in a detailed study of two typical ward leaders in Chicago and the groups they serve should consult the author's *Negro Politicians The Rise of Negro Politics in Chicago* About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Machine Politics* Harold F. Gosnell, 1971 *Machine Politics* Harold Foote Gosnell, 1939 **Machine politics** Harold F. Gosnell, 1968 **Machine Politics in Transition** Thomas M. Guterbock, 1980-03-01 Since 1932 elections and decision making in Chicago have been dominated by the Regular Democratic Organization of Cook County led for a quarter of a century by the late Mayor Richard J Daley The extraordinary longevity of this Democratic machine provides the basis for this penetrating investigation into the nature of machine politics and grassroots party organization For three years Thomas M Guterbock participated in the daily activities of the Regular Democratic Organization in one North Side Chicago ward in order to discover how political machines win the support of the

urban electorate Guterbock's participant observation data supplemented by a sample survey of ward residents attitudes toward and contacts with the machine provide convincing evidence that the most widely accepted notions of how political machines work are no longer correct Contrary to conventional wisdom about the machine Guterbock finds that the party does not secure votes by doing favors for people nor do services rendered determine actual voting behavior Instead party loyalty is governed by such factors as social status educational achievement and bureaucratic competence Guterbock finds that Democratic loyalists are drawn disproportionately from the ward's lowest strata Ironically the characteristics of these loyal Democrats contrast sharply with the characteristics of those most likely to use party services What keeps the machine going then To answer this question Guterbock takes us behind the scenes for a unique look inside the ward club He shows how members develop loyalty and motivation beyond concern for their own pocketbooks And he analyzes the public involvement of machine politicians in neighborhood affairs describing the skillful sometimes devious ways in which they appeal to their constituents sense of community By focusing on the interplay of party loyalty and community attachments Guterbock is able to explain the continued hegemony of Chicago's political machine and its enduring image of legitimacy

Machine Politics Harold Foote Gosnell, 1968 *Machine Politics : Chicago Model. Foreword by W. F. Ogburn* Harold F.. Gosnell, 1939 **City Choices** Kenneth K. Wong, 1990-07-05 City Choices argues that both economic concerns and political factors can be synthesized in a new framework in city policymaking This synthesis is based on a systematic empirical study of policymaking in two large cities Using numerous governmental documents and conducting extensive interviews with local state and federal officials the author examines how the two cities have implemented both federal redistributive and development programs in education and housing The author uses three models in explaining city choices economic constraint clientele participation and institutional diversity and concludes by offering his political choice perspective which identifies specific sets of local political forces that are likely to alter the city's rational choices in development and redistributive issues

Race and Ethnicity in Comparative Perspective Georgia A. Bulletin, 2007

The Two Majorities and the Puzzle of Modern American Politics Byron E. Shafer, 2003 Where did the Era of Divided Government come from What sustains split partisan control of the institutions of American national government year after year Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses How can the vast array of issues and personalities that have surfaced in American politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time These big questions constitute the puzzle of modern American politics The old answer a majority and a minority party plus dominant and recessive public issues will not work in the Era of Divided Government Byron Shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics provides a convincing new answer that has three major elements These elements in combination not divided government as a catch phrase are the real story of politics in our time The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities The old cluster of economic and welfare issues has not so much been displaced

as simply joined by a second cluster of cultural and national concerns The second element can be seen in the behavior of political parties and party activists whose own preferences don t match those of the general public That public remains reliably left of the active Republican Party on economic and welfare issues and reliably right of the active Democratic Party on cultural and national concerns The third crucial element is found in an institutional arrangement the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out In the first half of the book Shafer examines how dominant features of the Reagan first Bush Clinton and second Bush administrations reflect the interplay of these three elements Recent policy conflicts and institutional combatants in Shafer s analysis illuminate this new pattern of American politics In the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework In this light modern American politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time *An Evaluation of Alternative Models of Citizen Participation in Urban Bureaucracy* Joseph L.
