Nocturnes Reflections:

Nocturne Hélène Valance, 2018-06-12 A beautifully illustrated look at the vogue for night landscapes amid the social political and technological changes of modern America The turn of the 20th century witnessed a surge in the creation and popularity of nocturnes and night landscapes in American art In this original and thought provoking book H l ne Valance investigates why artists and viewers of the era were so captivated by the night Nocturne examines works by artists such as James McNeill Whistler Childe Hassam Winslow Homer Frederic Remington Edward Steichen and Henry Ossawa Tanner through the lens of the scientific developments and social issues that dominated the period Valance argues that the success of the genre is connected to the resonance between the night and the many forces that affected the era including technological advances that expanded the realm of the visible such as electric lighting and photography Jim Crow era race relations America s closing frontier and imperialism abroad and growing anxiety about identity and social values amid rapid urbanization This absorbing study features 150 illustrations encompassing paintings photographs prints scientific illustration advertising and popular media to explore the predilection for night imagery as a sign of the times Nocturnes and reflections Howard Skempton, 2004 This is a collection of 36 piano pieces dating from 1995 to 2002 At times enigmatic at others direct the writing captures and reflects a myriad of moods revealing Skempton s highly original voice Although most of the pieces were composed for seasoned performers they are suitable for any pianist seeking worthwhile and imaginative contemporary repertoire Transparency and Reflection Matthew Boyle, 2024 The maxim Know thyself has been central to philosophy since antiquity but today there is widespread skepticism both within philosophy and in our intellectual culture at large about the extent to which we can truly know our own minds and the extent to which self knowledge matters to our lives Transparency and Reflection argues that although we can be mistaken about ourselves in many respects such mistakes occur against the background of a fundamental self understanding that is necessarily available to any human subject To deny this essential capacity for self understanding Matthew Boyle argues is to leave out the very thing that makes us human

Nocturne Frank Swinnerton, 1917 A novel of cockney life in London **Late Bresson and the Visual Arts** Raymond Watkins, 2025-10-01 The color films of French film director Robert Bresson 1901-99 have largely been neglected despite the fact that Bresson himself considered them to be more fully realized reflections of his aspirations for the cinema This study presents a revised and revitalized Bresson comparing his late style to painterly innovations in color light and iconography from the Middle Ages to the present to abstract painting in France after World War II and to affinities with the avant garde movements of Surrealism Constructivism and Minimalism Drawing on media archeology this study views Bresson s work through such allied visual arts practices as painting photography sculpture theater and dance **The Edinburgh Review**, 1883 *The Amateur Photographer & Photography*, 1919 **Nocturne** Alister McAllister, 1921 **Nocturne Militaire** Elliott White Springs, 1927 *Neo-Impressionism and Anarchism in Fin-de-Si?e France* Robyn Roslak, 2017-07-05 In Neo

Impressionism and Anarchism in Fin de Si e France Robyn Roslak examines for the first time the close relationship between neo impressionist landscapes and cityscapes and the anarchist sympathies of the movement s artists She focuses in particular on paintings produced between 1886 and 1905 by Paul Signac and Maximilien Luce the neo impressionists whose fidelity to anarchism to the art of landscape and to a belief in the social potential of art was strongest Although the neo impressionists are best known for their rational and scientific technique they also heeded the era s call for art surpassing the mundane realities of everyday life By tempering their modern subjects with a decorative style they hoped to lead their viewers toward moral and social improvement Roslak s ground breaking analysis shows how the anarchist theories of Elis Reclus Pierre Kropotkin and Jean Grave both inspired and coincided with these ideals Anarchism attracted the neo impressionists because its standards for social justice were grounded like neo impressionism itself in scientific exactitude and aesthetic idealism Anarchists claimed humanity would reach its highest level of social and moral development only in the presence of a decorative variety of nature and called upon progressive thinkers to help create and maintain such environments The neo impressionists who primarily painted decorative landscapes therefore discovered in anarchism a political theory consistent with their belief that decorative harmony should be the basis for socially responsible art

Nocturnes for organ Eric De Lamarter,1943

New York Nocturne William Sharpe,2008 As early as the 1850s gaslight tempted New Yorkers out into a burgeoning nightlife filled with shopping dining and dancing Electricity later turned the city at night into an even more stunning spectacle of brilliantly lit streets and glittering skyscrapers The advent of artificial lighting revolutionized the urban night creating not only new forms of life and leisure but also new ways of perceiving the nocturnal experience New York Nocturne is the first book to examine how the art of the gaslit and electrified city evolved and how representations of nighttime New York expanded the boundaries of modern painting literature and photography Exploring the myriad images of Manhattan after dark New York Nocturne shows how writers and artists took on the city s nocturnal blaze and transformed the scintillating landscape into an icon of modernity The book traces key metaphors of the nighttime city a seductive Babylon in the mid 1850s a misty fairyland colonized by an empire of light in the early twentieth century and a skyscraper studded land of desire that became a stage for the voyeurism and violence of the 1940s and 1950s The epilogue suggests how these themes have continued to shape our vision of nighttime New York ever since Abundantly illustrated New York Nocturne includes original readings of works by Whitman Poe Whistler Riis Stieglitz Abbott O Keeffe Stella Hopper Weegee Ellison Jacquette and many others Collectively they tell a fascinating story about the relationship between night art and modern urban life
