Government* Pat O'Malley, 2012-09-10 Both risk and uncertainty are neo liberal concepts which can be viewed as
complementary techniques for governing diverse aspects of life rather than natural states of things This new book examines
the way these constructs govern the production of wealth through uncertain speculation and calculable investment formulae
The way in which risk and uncertainty govern the minimisation of harms through insurance and through the uncertain

out of moral and social beliefs about how to govern properly In addition the book analyzes is how during this process ideas
such as contract and distinctions between insurance and gambling were invented to order to properly govern the risky and
uncertain future Consolidated Supplement to the Codes and General Laws of 1909 California, James Henry Deering, 1913
