

Olive Grove

Mauro Agnoletti,Francesca Emanueli

Olive Grove:

The Olive Grove Deborah Rohan, 2012-01-16 The Moghrabis have lived in Palestine for centuries. Near the end of the First World War Ottoman soldier Kamal Moghrabi is imprisoned by his Turkish masters. Reunited with his family after being freed by British soldiers he marries his childhood friend Haniya. But their happiness is short lived as their homeland is ravaged by violence between the local Arab population and Jewish immigrants fleeing Europe. Any hope of an independent Palestine is shattered and the Moghrabis are forced to flee their home with its cherished olive groves. Based on a true story this family saga is a universal depiction of Palestinian life and culture with a warm and engaging love story at its heart. Beautifully written insights behind the Palestinian conflict are gained in reading this heart wrenching yet endearing tale of one family's journey. Polly Bacca former special assistant to President Bill Clinton

Integrated Pest Control in Olive Groves R. Cavalloro, 1985-06-01 [The Olive Landscapes of the Mediterranean](#) José Muñoz-Rojas, Roberto García-Ruiz, 2024-12-13 This book provides a state of the art review of the current models and typologies of olive landscapes and related farming systems in the Mediterranean. It also explores potential prospects for monitoring and enhancing their sustainability standards. Olive groves are an essential component of the historical landscape that largely drive the cultural, ecological and socio-economic character of the region. Agronomic intensification and mechanization, market globalization and delocalization, and financialization are affecting these ancient farming systems in certain olive landscapes whereas others are threatened by abandonment and financial loss. This complex set of processes is resulting in a heterogeneous mosaic of olive landscapes when examined across nested spatial, temporal scales and institutional levels. In alignment with such complexity, multiple challenges are arising linked to sustainability standards and targets. Sustainability has actually been the subject of much public discussion and yet of not nearly enough scientific evidence gathering that is both robust and comparable across geographic contexts and scales. This is where this book is expected to provide a meaningful contribution. Ultimately, the main objective of this book is to establish a base line sustainability picture of the complex mosaic of olive landscapes across the Mediterranean region. The book is structured along a series of national, regional and thematic reviews and syntheses which lead to joined up reflections on current and future challenges, opportunities and trajectories for enhancing the sustainability of olive landscapes across the Mediterranean. The book will be of interest to academics and researchers, policy makers, the farming community and market agents alike. We expect that they will find in this book an overall picture of the sector's current situation and plausible pathways for achieving enhanced sustainability standards whilst also permitting the reader to gain depth on the contingent characteristics of the different drivers, components and typologies of these dynamic and valuable landscapes.

[Modernity, Frontiers and Revolutions](#) Maria Rosário Monteiro, Mário Ming Kong, Maria João Pereira Neto, 2018-09-25 The texts presented in Proportion, Harmonies and Identities PHI MODERNITY FRONTIERS AND REVOLUTIONS were compiled with the intent to establish a multidisciplinary platform for the presentation, interaction and

dissemination of research It also aims to foster awareness of and discussion on the topics of Harmony and Proportion with a focus on different visions relevant to Architecture Arts and Humanities Design Engineering Social and Natural Sciences and their importance and benefits for the sense of both individual and community identity The idea of modernity has been a significant driver of development since the Western Early Modern Age Its theoretical and practical foundations have become the working tools of scientists philosophers and artists who seek strategies and policies to accelerate the development process in different contexts

World Terraced Landscapes: History, Environment, Quality of Life Mauro Varotto, Luca Bonardi, Paolo Tarolli, 2018-12-06 This volume collects the best scientific contribution presented in the 3rd World Conference on Terraced Landscapes held in Italy from 6th to 15th October 2016 offering a deep and multifaceted insight into the remarkable heritage of terraced landscapes in Italy in Europe and in the World America Asia Australia It consists of 2 parts a geographical overview on some of the most important terraced systems in the world 1st part and a multidisciplinary approach that aims to promote a multifunctional vision of terraces underlining how these landscapes meet different needs cultural and historical values environmental and hydrogeological functions quality and variety of food community empowerment and sustainable development 2nd part The volume offers a great overview on strengths weaknesses functions and strategies for terraced landscapes all over the world summarizing in a final manifest the guidelines to provide a future for these landscapes as natural and cultural heritage
