## **Omega Project Near Death Experiences Ufo Encounters And Mind At Large:**

**The Omega Project** Kenneth Ring,1992 An examination of the similarities of near death experiences and those who claim alien abduction Also includes a discussion of childhood alien encounters and of personalities that are apparently more sensitive to spiritual and visionary encounters    **Omega Project** Kenneth Ring,1993 Reveals that UFO abductees bear strong psychological resemblances to Near Death Experience survivors and concludes that these experiences may represent a new stage in the evolution of the human mind

**The Gods Have Landed** James R. Lewis,1995-03-09 This is a

comprehensive account of the religious dimensions of the UFO flying saucer experience

**Making Sense of Near-death Experiences**

Mahendra Perera,Karuppiah Jagadheesan,Anthony Peake,2012 A near death experience NDE is a phenomenon whereby powerful physical and emotional sensations and visions are experienced by someone who is either close to death or has been declared clinically dead This is a guide to the theory and evidence underlying the phenomenon of NDEs

**Near Death Experiences**

Anthony Peake,2024-11-01 As the bestselling author of Is There Life After Death and Cheating the Ferryman Anthony Peake has studied the phenomena surrounding what happens when we die In Near Death Experiences he takes a look at a phenomenon that has garnered great attention from both academics and scientists who study the workings of the brain and the physiological events that are associated with this seemingly inexplicable state By marrying up anecdotal evidence with empirical scientific evidence Peake proffers the latest theories behind what we call near death experiences and how those investigating them are trying to reconcile an apparent state of awareness on the part of the person concerned with the fact that clinically they are considered by physicians to be in a state of clinical death with no signs of bodily functions It makes for a fascinating read that takes us into an area of neuroscientific research that is continually evolving

**Mysterious Minds** Stanley Krippner,Harris L. Friedman,2009-11-12 An introduction to the scientific study of psychics and mediums those who are frauds those who are psychotic and those whose claims seem to defy easy dismissal Welcome to the world of Mysterious Minds The Neurobiology of Psychics Mediums and Other Extraordinary People Here experts in the emerging field of neurobiological study make the case that while many claims of psychic ability are easily proven false there may well be claimants who can obtain information in ways not easily explained by mainstream science and there might be scientific tools and approaches available to confirm those experiences Written by an expert team of distinguished investigators from a half dozen countries around the world Mysterious Minds introduces readers to the current state of research into parapsychological experiences emphasizing the neurobiological data obtained by those who claim to be psychics or mediums It offers specific examples of paranormal claims of extraordinary people claims scrutinized through the use of high tech brain imaging clinical neurological examinations and psychotropic drugs The book concludes by proposing a series of models based on fundamental neurobiology psychology and quantum physics that could help us unravel these mental mysteries    **UFOs and Abductions** David Michael Jacobs,2000 Examining the nature of UFO evidence the authors

present a primer for scholars skeptics and others uneasy about investigating the field of UFOs The volume also brings together three bestselling authors David M Jacobs Budd Hopkins and Pulitzer Prize winner John Mack widely known for their writings on the controversial alien abduction phenomenon

### **New Revolutions for a Small Planet** Kingsley

Dennis,2012-01-01 According to sociologist Kingsley L Dennis our current economic woes are part of a larger shift in the way our global systems function In his recent book New Revolutions for a Small Planet Watkins November 2012 Dennis provides a strong dose of hope for young adults everywhere especially those hit hardest by the current economic crisis According to Dennis we are witnessing the last throes of the industrial revolution model and mindset The signs are all around us he says pointing to the rise of decentralized communications the growth of NGOs and volunteerism and rising social unrest against dysfunctional political systems These are all harbingers of the next phase of our socio cultural evolution New Revolutions looks at what young people can expect in the years ahead The birth of the empathic mind which is heralded by greater global interconnections networked communication and a participatory culture A burgeoning sense of a dynamic enchanting cosmos and the increased urge to find personal meaning and fulfillment in life Greater awareness of how new innovations will lead to creative new ways of thinking that will solve the world s current problems New systems and models that will emerge to eventually make the old models obsolete In his conclusion Dennis writes that Revolutions in communications and energy technology go together with our shifting forms of consciousness and that life upon this planet is about to undergo a period of transition that will test our capacity to re adapt and re emerge on an unprecedented scale

### **Science, Theology, and**

**Ethics** Ted Peters,2017-03-02 Science challenges faith to seek fuller understanding and faith challenges science to be socially and ethically responsible This book begins with faith in God the Creator of the world and then expands our understanding of creation in light of Big Bang cosmology and new discoveries in physics Examining the expanding frontier of genetic research Ted Peters draws out implications for theological understandings of human nature and human freedom Issues discussed include methodology in science and theology eschatology in cosmology and theology freedom and responsibility in evolution and theology and genetic determinism genetic engineering and cloning in relation to freedom the comodification of human life and equitable distribution of the fruits of genetic technology The dialogue model of relationship between science and religion proposed in this book provides a common ground for the disparate voices among theologians scientists and world religions This common ground has the potential to breathe new life into current debates about the world in which we live move and have our being
