On Bicycles:

On Bicycles Evan Friss, 2019-05-07 Subways and yellow taxis may be the icons of New York transportation but it is the bicycle that has the longest claim to New York's streets two hundred years and counting. Never has it taken to the streets without controversy. 1819 was the year of the city's first bicycle and also its first bicycle ban. Debates around the bicycle's place in city life have been so persistent not just because of its many uses: recreation, sport, transportation, business, but because of changing conceptions of who cyclists are. In *On Bicycles* Evan Friss traces the colorful and fraught history of cycling in New York City. He uncovers the bicycle's place in the city over time showing how it has served as a mirror of the city's changing social, economic, infrastructural, and cultural politics since it first appeared. It has been central as when horse-drawn carriages shared the road with bicycle lanes in the 1890s, peripheral when Robert Moses's car-centric vision made room for bicycles only as recreation and aggressively marginalized when Ed Koch's battle against bike messengers culminated in the short-lived 1987 Midtown Bike Ban. *On Bicycles* illuminates how the city as we know it today, veined with over a thousand miles of bicycle lanes, reflects a fitful journey powered and opposed by New York City's people and its politics.

On Bicycles Amy Walker, 2011-08-30 Once the quaint province of European cities such as Amsterdam, daily cycling is currently exploding in North American cities. People ride folding bikes to the train, slip through traffic on tricked-out xed gears, and carry children and groceries on their utility bikes. Commuters are giving up their cars. Monday through Friday bike lanes and bike parking are sprouting up all over. Talking Head David Byrne has designed arty bike racks for various New York City neighborhoods. It's healthy for riders and clean for the environment, but is it fun? Amy Walker, who has been at the forefront of the urban cycling trend, knows that the answer is yes. She presents stories by a diverse group of cycling enthusiasts and activists, accompanied by the illustrations of bike culture artist Matt Fleming, show readers why. They say you never forget how to ride a bike; this collection helps us remember why we ride.

On Bicycles Amy Walker, 2011 An inspirational manifesto about the myriad ways the new bike culture can change and is changing daily life in cities throughout the world.

Regional Workshops on Bicycle Safety Vincent Stephen Darago, 1978 The report contains abridged staff presentations in the following areas: Background, Comprehensive Safety Program Planning, Six Major Accident Groups, Education Concepts, Implementation Theory, Program Cost, Facilities Concepts, and Evaluation. A state of the art of bicycle safety is formulated based upon the programs in common practice in the United States.
