

*This Shadow is renowned Shakespeare's; Soul of it was
The applause! delight! the wonder of the Stage;
Nature her self was proud of his descent,
And joy'd to wear the dressing of his line;
The learned will Confesse his works are such,
As neither man nor Muse can praise to much.
For ever live thy fame, the world is full;
Thy like, no ages shall ever parallel.*

Shakespeare - Essays In Honour of Richard Proudfoot Gordon McMullan, Ann Thompson, 2015-03-20 A collection of new and specially commissioned essays by an eminent team of Shakespeare scholars focusing on the particular issues relating to the editing of Shakespeare and other Renaissance texts The editing of dramatic and other literary texts has always been an important aspect of literary studies In recent years editing and the theoretical frameworks that underlie editing practices have become a lively and controversial focus of debate sparked both by philosophical discussions on the death of the author and by the technological challenges presented by the possibilities of electronic texts Most national and international conferences on literature and drama include sessions on textual studies and editing and a number of monographs address particular issues relating to the editing of Shakespeare and other Renaissance texts but this is the first overall survey of the current state of the field The essays have been commissioned to honour Professor Richard Proudfoot Senior General Editor of the Arden Shakespeare and an internationally recognised authority in the field of Shakespeare textual scholarship who retired from King's College London in 1999 after 35 years This is a well planned focused and co-ordinated volume makes a significant contribution to Shakespeare studies The contributors are a formidable and global group of scholars representing

both traditional and contemporary viewpoints They include a number of Arden editors past and present as well as scholars who have edited texts for the main competitors On Editing Shakespeare and the Elizabethan Dramatists. Shakespeare 1765 This study while putting the hostile views of Pope and Johnson into their intellectual and social contexts reassesses Theobald's aims and achievements from the perspective of twentieth century textual scholarship his concerns with Elizabethan philology palaeography and bibliography which were usually ignored or ridiculed in his own time are seen to be distinctly modern At the same time attention is paid to his critical understanding of Shakespeare The result is a radical alteration of our view of him instead of appearing a contemptible dunce Theobald takes his place as the pioneer of techniques of modern literary scholarship whose critical acumen still illuminates our understanding of Shakespeare today **Editing**
