On Humanistic Education:

Humanistic Education ASCD Working Group on Humanistic Education, Arthur Wright Combs, 1978 **Enhancing Humanity** N. Aloni, 2002-12-31 In Jean Paul Sartre's *Nausea* Roquentin feels bound to listen to the sentimental ramblings about humanism and humanity by the Self-Taught Man. Is it my fault, muses Roquentin, in all he tells me I recognize the lack of the genuine article? Is it my fault if, as he speaks, I see all the humanists I have known rise up? I have known so many of them! And then he lists the radical humanist, the so-called-left humanist and Communist Humanist, the Catholic humanist, all claiming a passion for their fellow men. But there are others, a swarm of others, the humanist philosopher who bends over his brothers like a wise older brother with a sense of his responsibility, the humanist who loves men as they are, the humanist who loves men as they ought to be, the one who wants to save them with their consent and the one who will save them in spite of themselves. Quite naturally, the skeptical Roquentin ends by saying how they all hate each other as individuals, not as men. Fully aware of the misuse and false comfort in the use of the term, Professor Aloni proceeds to restore meaning to the word as well as appropriate its educational significance. There is a freshness in this book, a restoration of a lost clarity, a regaining of authentic commitment.

Humanistic Education, 1978 **On Humanistic Education** Giambattista Vico, 2018-05-31 Vico's earliest extant scholarly works, the six first statements of ideas that Vico would continue to refine throughout his life. Delivered between 1699 and 1707 to usher in the new academic year at the University of Naples, the orations are brought together here for the first time in English in an authoritative translation based on Gian Galeazzo Visconti's 1982 Latin-Italian edition. In the lectures Vico draws liberally on the classical philosophical and legal traditions as he explores the relationship between the Greek dictum *Know thyself* and liberal education. As he sets forth the values and goals of a humanist curriculum, Vico reveals the beginnings of the anti-Cartesian position he will pursue in *On the Study Methods of Our Time* (1709). Also found in the orations are glimpses of Vico's later views on the theory of interpretation and on the nature of language, imagination, and human creativity, along with many themes that were to be fully developed in his magnum opus *The New Science* (1744). *On Humanistic Education* will be welcomed by Vichians and their students, intellectual historians and others in the fields of philosophy, literary theory, history, and methods of education, classics and rhetoric.
