On Illustrious Men:

On Illustrious Men Saint Jerome,1999 Annotation This volume completes the Commentary on all the Psalms written by Theodoret bishop of Cyrus in the decade before the Council of Chalcedon held in 451 a triumph of Antiochene theology in the words of J N D Kelly The work thus bears the marks of the theological currents of those years especially as Theodoret was instrumental in convening that Council and was involved in the Christological and trinitarian debates of the period Theodoret s work of commentary offers readers a great spiritual classic that has contributed to Christian spiritual formation and received the attention of eminent commentators from Antioch and Alexandria in the East and from the likes of Augustine of Hippo in the West As this volume closes Theodoret claims modestly to have offered his readers the best of his predecessors work including Alexandrian commentators together with his own insights into the Spirit s hidden mysteries He writes as a teacher not a preacher in his pulpit with the purpose simply of dispelling ignorance concerned that those singing the Psalter daily and uttering the words by mouth do not enquire about the force of the ideas underlying the words This translation respects the conciseness which the bishop sets as one aim for himself his other principle being to let the text speak for itself Theodoret emerges in this work as a measured commentator and balanced exponent of his school s hermeneutical and theological principles

Lives of Illustrious Men Jerome and Gennadius,Aeterna Press, You have urged me Dexter to follow the example of Tranquillus in giving a systematic account of ecclesiastical writers and to do for our writers what he did for the illustrious men of letters among the Gentiles namely to briefly set before you all those who have published any memorable writing on the Holy Scriptures from the time of our Lord s passion until the fourteenth year of the Emperor Theodosius A similar work has been done by Hermippus the peripatetic Antigonus Carystius the learned Satyrus and most learned of all Aristoxenus the Musician among the Greeks and among the Latins by Varro Santra Nepos Hyginus and by him through

Christianity, Empire, and the Making of Religion in Late Antiquity Jeremy M. Schott,2008-08-26 In Christianity Empire and the Making of Religion in Late Antiquity Jeremy M Schott examines the ways in which conflicts between Christian and pagan intellectuals over religious ethnic and cultural identity contributed to the transformation of Roman imperial rhetoric and ideology in the early fourth century C E During this turbulent period which began with Diocletian's persecution of the Christians and ended with Constantine's assumption of sole rule and the consolidation of a new Christian empire Christian apologists and anti Christian polemicists launched a number of literary salvos in a battle for the minds and souls of the empire Schott focuses on the works of the Platonist philosopher and anti Christian polemicist Porphyry of Tyre and his Christian respondents the Latin rhetorician Lactantius Eusebius bishop of Caesarea and the emperor Constantine Previous scholarship has tended to narrate the Christianization of the empire in terms of a new religion's penetration and conquest of classical culture and society The present work in contrast seeks to suspend the static essentializing conceptualizations of religious identity that lie behind many studies of social and political change in late antiquity in order to investigate the processes through which Christian and pagan identities were constructed Drawing on the insights of postcolonial discourse analysis Schott argues that the production of Christian identity and in turn the construction of a Christian imperial discourse were intimately and inseparably linked to the broader politics of Roman imperialism Illustrious Men ,1861 **Lives Of Illustrious Men** Plutarch,2022-10-27

The Journey of Christianity to India in Late Antiquity Nathanael J. Andrade,2018-04-19 How did Christianity make its remarkable voyage from the Roman Mediterranean to the Indian subcontinent By examining the social networks that connected the ancient and late antique Mediterranean to the Indian Ocean central Asia and Iran this book contemplates the social relations that made such movement possible It also analyzes how the narrative tradition regarding the apostle Judas Thomas which originated in Upper Mesopotamia and accredited him

with evangelizing India traveled among the social networks of an interconnected late antique world In this way the book probes how the Thomas narrative shaped Mediterranean Christian beliefs regarding co religionists in central Asia and India impacted local Christian cultures took shape in a variety of languages and experienced transformation as it traveled from the Mediterranean to India and back again *The Genre of Acts and Collected Biography* Sean A. Adams, 2013-10-17 It is widely accepted by New Testament scholars that the Gospel of Luke and the Acts of the Apostles probably originated as two parts of one work by a single author In spite of this the books have been assigned to very different genres Luke is traditionally viewed as a biography of Jesus and Acts as a history of the early church Comparing in detail the structure and content of Acts with the formal features of history novel epic and biography Sean A Adams challenges this division Applying both ancient and modern genre theory he argues that the best genre parallel for the Acts of the Apostles is in fact collected biography Offering a nuanced and sophisticated understanding of genre theory along with an insightful argument regarding the composition and purpose of Acts this book will be of interest to those studying the New Testament Acts genre theory and ancient literature
