mechanism or process It sees less because it excludes a necessary and enlarging human presence the generative and receiving I This fascinating new book length essay is addressed to any reader interested in the performing arts visual arts and literature and their relationship to the broader culture Goehring draws on seminal thinkers in art criticism and philosophy to propose that such works as Mozart's radiate an idealism that has human sociability both as its source and its object This book is available as an Open Access eBook under the Creative Commons license CC BY NC
