performing narrative Along the way they show the embodied contexts of storytelling the material constraints on narrative performances and the myriad ways storytelling orders information and tasks constitutes meanings and positions speaking subjects Readers will also learn that narrative performance is consequential as well as pervasive as storytelling opens up experience and identities to legitimization and critique The authors multi leveled model of strategy and tactics considers how relations of power in a system are produced reproduced and altered in performing narrative The authors explain this strategic model through an extended discussion of family storytelling using Franco Americans in Maine as their exemplar They explore what stories families tell how they tell them and how storytelling creates family identities Then they show the range and reach of this strategic model by examining storytelling in diverse contexts a breast cancer narrative a weblog on the Internet and an autobiographical performance on the public stage Readers are left with a clear understanding of how and why the performance of narrative is the primary communicative practice shaping our lives today *On Narrative and Narratives* ,1974
