On Architecture Ada Louise Huxtable, 2010-07-15 Known for her well reasoned and passionately held beliefs about architecture Ada Louise Huxtable has captivated readers across the country for decades in the process becoming one of the best known critics in the United States Her brilliance over so many years is unmatched and her range has always been vast from a plea to save a particular architectural treasure to an ongoing discussion about whether modern architecture is dead Her keen eye and vivid writing have reinforced to readers how important architecture is and why it continues to be both controversial and fascinating Since so much of her writing has been in newspapers it has quickly become unavailable to her many fans On Architecture will bring together her best work from the New York Times New York Review of Books her more recent essays in the Wall Street Journal and her various books She is personally selecting and organizing the pieces into sections like Art and Culture and The Art of Architecture and is revising them as needed to bring them up to date Whether you love modern architecture or desire a return to Beaux Arts design this book will give you insight into the mind and heart of a critic who has artfully brought the discussion of architecture architects and our environment to readers for five decades

John Ruskin,1884 **Sir John Soane? Influence on Architecture from 1791** Oliver Bradbury,2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture

Dialogues on architecture Emilio Faroldi, Maria Pilar Vettori, 2022-01-20 he dialogue as the talking of the soul with itself that constitutes the act of thinking Plato has been selected as the ideal form through which to vividly and accurately convey the thinking of a number of protagonists of Italian modern architecture Knowledge remains a latent legacy of the soul until a given stimulus reawakens its memory architecture more than sophia wisdom becomes philo sophia i e love of knowledge A reading of the architectural phenomenon aimed at faithfully bringing out its complexity cannot help but involve the stories directly told by the protagonists and the micro stories of individual episodes in order to explore the relationship that exists between the poetic and the technical scientific spheres underlining their complementary and conflictual nature The disciplinary tools of exegesis of design and its materialization stimulate a form of critique of criticism driven by the rejection of an angle of interpretation of architecture oriented exclusively towards

its results Method and result constitute the inseparable terms the direct testimony of certain protagonists of Italian architecture makes it possible to reconnect the interrupted threads of a narrative that has often been rendered syncopated and unilateral by excessively superficial explanation The Dialogues on Architecture explore the interaction between idea design and construction revealing different operative and conceptual modes through which to achieve the finished work Franco Albini Lodovico B Belgiojoso Guido Canella Aurelio Cortesi Roberto Gabetti Aimaro Isola Ignazio Gardella Vittorio Gregotti Vico Magistretti Enrico Mantero Paolo Portoghesi Aldo Rossi Giuseppe Terragni Vittoriano Vigan are the authors of this narrative
