On Becoming A Person:

On Becoming a Person Carl Rogers, 2011-08-04 In this book one of America's most distinguished psychologists describes his experiences in helping people to discover the path to personal growth through an understanding of their own limitations and potential. What is personal growth? Under what conditions is it possible? How can one person help another? What is creativity and how can it be fostered? These are some of the issues raised which challenge many concepts of traditional psychology. Contemporary psychology derives largely from the experimental laboratory or from Freudian theory. It is preoccupied with minute aspects of animal and human behaviour or with the mentally ill. But there are rebels of whom the author counts himself as one along with Gordon Allport, Abraham Maslow and Rollo May who feel that psychology and psychiatry should be aiming higher and be more concerned with growth and potentiality in man. The interest of such a psychology is in the production of harmoniously mature individuals given that we all have qualities and possibilities infinitely capable of development. Successful development makes us more flexible in relationships, more creative and less open to suggestion and control. This book philosophically and provocatively summarizes Dr Rogers' experience. Non-technical in its language, it is not only for psychologists and psychiatrists but for teachers and counsellors, religious and social workers, labour management specialists and anyone interested in becoming.

On Being a Person Todd Speidell, 2002-12-02 From the Introduction
The approach of this text will be multidisciplinary: psychologists, philosophers, theologians and ethicists grappling with what it means to be a person. This volume will not attempt to provide a comprehensive history of psychology but will instead focus on selected representatives of various paradigms of psychology from the first systematic psychologist, Aristotle, through psychology's development as an empirical science and to recent developments in family systems theory. It will especially emphasize a social, relational, spiritual view of the self; namely, human relations to God and to others are essential to humanity.
