New York Legislative Documents New York (State). Legislature, 1921 New Outlook, 1956 Annual Report of the Council on Foreign Relations Council on Foreign Relations, 1973 How the Soviet Union is Governed Jerry F. Hough, Merle Fainsod, 1979 This is a new and thorough revision of a recognized classic whose first edition was hailed as the most authoritative account in English of the governing of the Soviet Union Now with historical material rearranged in chronological order and with seven new chapters covering most of the last fifteen years this edition brings the Soviet Union fully into the light of modern history and political science The purposes of Fainsod's earlier editions were threefold to explain the techniques used by the Bolsheviks and Stalin to gain control of the Russian political system to describe the methods they employed to maintain command and to speculate upon the likelihood of their continued control in the future This new edition increases very substantially the attention paid to another aspect of the political process how policy is formed how the Soviet Union is governed Whenever possible Mr Hough attempts to analyze the alignments and interrelationships between Soviet policy institutions Moreover he constantly moves beyond a description of these institutions to probe the way they work Two chapters are devoted to the questions of individual political participation Other chapters examine the internal organization of

institutions and explore the ways in which the backgrounds of their officials influence their policy positions and alliances. The picture that emerges is an unprecedented account of the distribution of power in the Soviet Union.
