**Scientific Instruments on Display**, 2014-08-14 During their active lives scientific instruments generally inhabit the laboratory observatory classroom or the field But instruments have also lived in a wider set of venues as objects on display As such they acquire new levels of meaning their cultural functions expand This book offers selected studies of instruments on display in museums national fairs universal exhibitions patent offices book frontispieces theatrical stages movie sets and on line collections The authors argue that these displays as they have changed with time reflect changing social attitudes towards the objects themselves and toward science and its heritage By bringing display to the center of analysis the collection offers a new and ambitious framework for the study of scientific instruments and the material culture of science Contributors are Amy Ackenberg Hastings Silke Ackermann Marco Beretta Laurence Bobis Alison Boyle Fausto Casi Ileana Chinnici Suzanne D barbat Richard Dunn Inga Elmqvist S derlund Ingrid Jendrzejewski Peggy A Kidwell Richard Kremer Mara Miniati Richard A Paselk Donata Randazzo Steven Turner *Troy on Display* Abigail Baker, 2019-10-03 This book explores what visitors saw at the Trojan exhibition and why its contents including treasure plain pottery and human remains captured imaginations and divided opinions When Schliemann s Trojan collection was first exhibited in 1877 no one had seen anything like it Schliemann claimed these objects had been owned by participants in the Trojan War and that they were tangible evidence that Homer s epics were true Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection s value and significance Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture Artists poets historians race theorists bankers and humourists took up this challenge but their conclusions were not always to Schliemann s liking Troy s appeal lay in its materiality visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions This book argues for a deep examination of museum exhibitions as a constructed spatial experience which can transform how the past is seen This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy **Culture On Display** Dicks, Bella, 2004-01-01 Reflecting on the contemporary proliferation of sites displaying culture in visitable form this text introduces readers to fresh ways of thinking about tourism leisure and heritage **JTEC Panel Report on Display Technologies in Japan**, 1993-06 Report by the Japanese Technology Evaluation Center that covers research development and manufacturing status of the flat panel display FPD in Japan Also makes predictions as to how the industry will evolve during the 1990s Provides detailed descriptions of the technologies being developed in Japan for the manufacture of FPDs *Numeracy on Display* Margaret Share, 2001 *French on Display* Hilary Ansell, 2006 Exciting displays and activities to stimulate work in French A highly lauded title from the best selling World of Display series using QCA MFL French as a starting point for creative activities in KS2 This title provides a different type of resource offering original display ideas to
