*On Ideas* Pappas, Nicholas J., 2020-05-01 Know yourself that's great advice but how do we get there In a lively conversation about the meaning of life three characters explore a wide range of concepts including friendship and love self discipline and self respect trust and justice    *On Ideas* Gail Fine, 1993-04-29 The *Peri ideon* On Ideas is the only work in which Aristotle systematically sets out and criticizes arguments for the existence of Platonic forms Gail Fine presents the first full length treatment in English of this important but neglected work She asks how and how well and why and with what justification he favours an alternative metaphysical scheme She also examines the significance of the *Peri ideon* for some central questions about Plato's theory of forms whether for example there are forms corresponding to every property or only to some then to which ones whether forms are universals particulars or both and whether they are meanings properties or both In addition to discussing the *Peri ideon* and its sources in Plato's dialogues Fine also provides a general discussion of Plato's theory of forms and of our evidence about the date scope and aims of the *Peri ideon* While she pays careful attention to the details of the text she also relates the issues to current philosophical concerns The book will be valuable for anyone interested in metaphysics ancient or modern    *Betting on Ideas* Reuven Brenner, 1989-07-10 In this book Reuven Brenner argues that people bet on new ideas and are more willing to take risks when they have been outdone by their fellows on local national or international scales Such bets mean that people deviate from the beaten path and either gamble commit crimes or come up with new ideas in art business or politics and ideas concerning war and peace in particular By using evidence on gambling crime and creativity now and during the Industrial Revolution by examining innovations in English and French inheritance laws and the emergence of welfare legislation and by looking at what has happened before and after wars Brenner reaches the conclusion that hope and fear envy and vanity sentiments provoked when being leapfrogged make humans race    **Motor World Wholesale**, 1921    *Mental Development in the Child* William T.
