On Quietism:

On Thinking and the World Sandra M. Dingli, 2017-07-05 John McDowell's *Mind and World* has since its publication in 1994 become a seminal text putting forward many new ideas on the manner in which concepts mediate the relation between minds and the world. Yet McDowell's ideas are not easy to comprehend. In this book Sandra Dingli both elaborates and simplifies McDowell's ideas in order to give greater clarity to them and to assist in the understanding and appreciation of his work. Dingli selects five particular contemporary philosophical topics which McDowell deals with and investigates in detail the implications of particular points of view analysing the current literature on each topic and drawing out shortcomings and possibilities for overcoming them. This work is then both a critique and complement to McDowell's text. McDowell's project is to dissolve a number of dualisms such as sensibility and understanding, conceptual and non-conceptual content, scheme and content, and reason and nature. Dingli critically analyses each of these and claims that a proper understanding of the philosophical method of quietism is important for a correct understanding of this text, concluding that McDowell does not go far enough in his attempt to attain peace for philosophy as traditional dichotomies such as that of realism and anti-realism still appear to exert a grip on his thinking.

Religion and Hezbollah Mariam Farida, 2019-08-01 This comprehensive and thought-provoking volume examines the role and function of religion in Hezbollah's political strategy in the context of contemporary Lebanese politics and global security. The book demonstrates how Hezbollah uses religious mechanisms such as *taklif shari* (religious assessment), *ijtihad* (interpretation of jihad), and *fatwa* (religious verdict) as political tools to mobilise the Shi'a in Lebanon and the Middle East and to build political support. The comprehensive content analysis scrutinises speeches of Hezbollah Secretary General Hassan Nasrallah from 2000 to 2013. The results provide and inform a wide-ranging discussion of Nasrallah's uses of rhetorical devices and context to imbue religious elements into Hezbollah politics to mobilise and motivate supporters. Additionally, a case study analysis of Hezbollah's intervention in the Syrian conflict is also included. This further demonstrates Hezbollah's strategic use of political pragmatism and religious rhetoric to link its political and military agendas and to transition the Party from a resistance group in Lebanon to a regional actor with a regional priority. As such, readers are provided with new and interesting insights into Hezbollah's ideology and identity as a domestic and regional non-state actor and the social mobilisation of Shi'a in Lebanon and the region. Providing a nexus between religion, politics, and security, the book will be a key resource for students and researchers interested in religious studies and Middle East politics.
