## On Sacred Mountains:

Sacred Mountains of the World Edwin Bernbaum, 2022-03-10 From the Andes to the Himalayas mountains have an extraordinary power to evoke a sense of the sacred In the overwhelming wonder and awe that these dramatic features of the landscape awaken people experience something of deeper significance that imbues their lives with meaning and vitality Drawing on his extensive research and personal experience as a scholar and climber Edwin Bernbaum's *Sacred Mountains of the World* takes the reader on a fascinating journey exploring the role of mountains in the mythologies religions history literature and art of cultures around the world Bernbaum delves into the spiritual dimensions of mountaineering and the implications of sacred mountains for environmental and cultural preservation This beautifully written evocative book shows how the contemplation of sacred mountains can transform everyday life even in cities far from the peaks themselves Thoroughly revised and updated this new edition considers additional sacred mountains as well as the impacts of climate change on the sacredness of mountains

Cuchama and Sacred Mountains Walter Yeeling Evans-Wentz, 1981 W Y Evans Wentz great Buddhist scholar and translator of such now familiar works as the *Tibetan Book of the Dead* and the *Tibetan Book of the Great Liberation* spent his final years in California There in the shadow of Cuchama one of the Earth's holiest mountains he began to explore the astonishing parallels between the spiritual teaching of America's native peoples and that of the deeply mystical Hindus and Tibetans Cuchama and Sacred Mountains a book completed shortly before his death in 1965 is the fruit of those explorations To Cuchama Exalted High Place came the young Cochimi and Yuma boys for initiation into the mystic rites for their people In solitude they sought and received guidance and wisdom In this same way the peoples of ancient Greece the Hebrews the early Christians and the Hindus had found access to inner truth on their own holy mountains and in this same way must the modern person find the path to inner knowing Surveying many of the most Sacred Mountains in North America South America Europe and Asia Evans Wentz expresses the belief that the secret power of these high places has not passed away but only awaits the coming of a New Age This new age in accord with the oldest prophecies of our continent will be a time of renaissance the long waited era of harmony and peace among all peoples This renaissance shall be uniquely American a renewal based on the values so long honored by the Americans before Columbus and so ruthlessly trampled by the civilized Europeans who overran them No other race of people has been as spiritual in their way of life than the original Americans notes Evans Wentz Perhaps none other has known such martyrdom Yet the secret greatness of the Indian religion still lives ancient as the Earth itself yet ageless in its power to renew
