On Social Research And Its Language:

On Social Research and Its Language Paul F. Lazarsfeld, 1993-11-15 The eighteen essays in On Social Research and Its Language illustrate the diversity of Lazarsfeld's substantive methodological and organizational interests. Spanning the years 1933 to 1972, they encompass his own works of social research as well as writings on methodology and the history and sociology of social research. Articles on methodology, observing, classifying, and building typologies, analyzing the relations between variables, qualitative analysis, and macrosociology form the bulk of the book. In addition, Raymond Boudon provides a revealing biography of Lazarsfeld and his influence on sociology. Publisher description

The Language of Social Research Paul Felix Lazarsfeld, 1957 **The Language of Social Research** Paul F. Lazarsfeld, Morris Rosenberg, 1955

Continuities in the Language of Social Research Paul Felix Lazarsfeld, 1972 Continuities in the Language of Social Research Paul Felix Lazarsfeld, Morris Rosenberg, 1972 On Social Research and Its Language Paul F. Lazarsfeld, 1993-11-15 Without Paul F. Lazarsfeld, the social sciences would not be what they are today. In his groundbreaking work on unemployment, voting, consumer behavior, and social influence, among other subjects, his methodological emphasis on vigorously controlled scientific language and structures transformed social research worldwide. Lazarsfeld's systematic criticism of observational, conceptual, and inferential procedures in sociology led to the formation of universally applied observational and analytical techniques, such as the panel design of observation and contextual and multivariate analysis. His methodology for empirical social research had a profound effect on all the social sciences. The eighteen essays in On Social Research and Its Language illustrate the diversity of Lazarsfeld's substantive methodological and organizational interests. Spanning the years 1933 to 1972, they encompass his own works of social research as well as writings on methodology and the history and sociology of social research. Articles on methodology, observing, classifying, and building typologies, analyzing the relations between variables, qualitative analysis, and macrosociology form the bulk of the book. In addition, Raymond Boudon provides a revealing biography of Lazarsfeld and his influence on sociology. These classic writings by a formative figure of modern social science will be an indispensable reference for scholars across the historical and social science disciplines.

Lazarsfeld's Methodology and Its Influence on Postwar Sociology in Europe Hynek Jeřábek, 2024-11-28 This book explains how the Columbia model of sociology, which was based on the methodology of P. F. Lazarsfeld, became a dominant sociological school of thought in American and European postwar sociology. Providing an overview of Lazarsfeld's inventions and his methodological, organisational, and institutional innovations, it describes the means by which a particular model of sociology was gradually adopted in departments headed by Lazarsfeld and in the work of his successors. With attention to the use by Lazarsfeld of methodological texts published by prestigious publishing houses in his research and teaching, his activity in international organisations including the UN, his collaboration with figures such as Robert K. Merton and Raymond Boudon, and his attempts to show how the roots of his empirical research methodology lay in the work of early
