**Orangutans** Serge A. Wich,2009 Orangutan populations show extensive variation in behaviour and demography This book carefully compares data from all orangutan research sites examining the differences and similarities between orangutan species subspecies and populations and develops a theoretical framework in which these can be explained Face to Face with Orangutans Tim Laman,Cheryl Denise Knott,2009 Describes the orangutan of Borneo in its natural habitat including information on the threats that now face this incredible primate **Being an Orangutan** Michael Sabatino,2014 Introduces orangutans describing their physical characteristics habitat diet and how they build their beds each night and use sticks to forage for food **Orangutan** David Orme,2005 Introduction to orangutans and the reasons that their numbers have been declining The Neglected Ape Biruté M.F. Galdikas,R.D. Nadler,N. Rosen,Lori K. Sheeran,2013-11-11 The orangutan is the most highly endangered species of great ape Orangutans are threatened by deforestation poaching the illegal pet trade and the isolation and fragmentation of dwindling wild populations Their conservation is impeded by certain aspects of their ecology e g a rain forest habitat and certain features of their life history e g an eight to twelve year interbirth interval Added to the U S Endangered Species List in 1970 the orangutan is now clearly on the road to extinction The number of wild orangutans in Borneo and Sumatra is currently estimated to have decreased to between 12 300 and 20 571 individuals Only 2% of original orangutan habitat is protected and some of these areas are now being destroyed Clearly attention to ecology demography censusing rehabilitation and conservation is essential if the orangutan is to survive in the wild beyond the next century The protection of orangutans is a complex multifaceted problem involving such pressing issues as human poverty overpopulation and the economic development of Southeast Asia Although the orangutan has been placed in Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora CITES more orangutans were sold illegally in Taiwan between 1990 and 1993 than are housed in all the world s zoos In the past scientific and public attention has centered on the African apes For this reason the sole Asian great ape the orangutan has been called the neglected ape

**Orangutan** Lynne Cherry,1987 Reaching for the Canopy Kylie Bullo,2015 Temara had done her species proud and proven that captive orangutans do have a place in the jungle of tomorrow I felt honoured that I was by her side during the first part of her remarkable world first journey In 2006 Kylie Bullo and her colleagues at Australia s Perth Zoo were part of a

bold groundbreaking experiment that many experts believed was doomed to failure to return a zoo born orangutan to the wild The orangutan they chose was Temara a fiery redhead with a will of her own Temara had always been strong intelligent and independent but preparing for the return to the jungles of her ancestors would put all her best qualities and those of her keepers to the test Reaching for the Canopy is the story of that remarkable journey and of the remarkable woman who helped make it happen The book proves that the right blend of passion compassion and hard work can achieve what many thought was impossible It brings new hope to those fighting to bring this magnificent creature back from the brink of extinction Part of the proceeds on the sale of this book will go towards orangutan conservation projects Librarians ebook available on

ProQuest and EBSCO Subject Memoir Zoology **Olivia the Orangutan** Felicia Law,2010-12-15 Olivia the orangutan helps the other orangutans by doing their chores while they play but when other animals start asking for her help she finds she may have taken on too much for one individual

*Decolonizing Extinction* Juno Salazar Parreñas,2018-08-09 In

Decolonizing Extinction Juno Salazar Parre as ethnographically traces the ways in which colonialism decolonization and indigeneity shape relations that form more than human worlds at orangutan rehabilitation centers on Borneo Parre as tells the interweaving stories of wildlife workers and the centers endangered animals while demonstrating the inseparability of risk and futurity from orangutan care Drawing on anthropology primatology Southeast Asian history gender studies queer theory and science and technology studies Parre as suggests that examining workers care for these semi wild apes can serve as a basis for cultivating mutual but unequal vulnerability in an era of annihilation Only by considering rehabilitation from perspectives thus far ignored Parre as contends could conservation biology turn away from ultimately violent investments in population growth and embrace a feminist sense of welfare even if it means experiencing loss and pain

**The Last Stand of the Orangutan** United Nations Environment Programme,2007 This publication has been carried out on behalf of the Great Ape Survival Partnership GRASP established by UNEP and UNESCO in collaboration with a wide range of non governmental organisations in response to growing concern over the plight of the orangutan the chimpanzee the bonobo and the gorilla The report used the latest satellite imagery and data from the Government of Indonesia to assess changes in the forests of one part of south east Asia The results indicate that illegal logging fires and the plantation of crops such as palm oil are intruding extensively into Indonesia s national parks the last safehold of the orangutan The orangutans share this habitat with a wild range of other threatened and ecologically important species including the Sumatran tiger Sumatran rhinoceros and Asian elephant

Chris Herzfeld,2016-05-02 She likes tea sews draws on papers and is a self taught master of tying and untying knots But she is not a crafty woman of the DIY set she is Wattana an orangutan who lives in the Jardin des Plantes Zoo in Paris And it is in Paris where Chris Herzfeld first encounters and becomes impressed by Wattana and her exceptional abilities with knots In Wattana An Orangutan in Paris Herzfeld tells not only Wattana's fascinating story but also the story of orangutans and other primates including bonobos chimpanzees and gorillas in captivity Offering a uniquely intimate look at the daily lives of captive great apes Herzfeld uses Wattana's life to trace the history of orangutans from their first arrival in Europe in 1776 to the inhabitants of the Zoo of Paris and other zoos today She provides a close look at the habits technical know how and skills of Wattana who remarkably uses strings paper rolls rope and even pieces of wood to make things And she thoughtfully explores how apes individually and often with ingenuity come to terms with and adapt to their captive environments and caretakers Through these stories Wattana sympathetically reveals the extraordinary psychology and distinctive personalities of great apes as well as the interconnections between animal and human lives especially in zoos Scientists predict that orangutans will disappear from the wild by 2030 and captive animals like Wattana may as a result provide our best chance to understand and appreciate their astonishing intelligence and abilities Wattana the accomplished maker of knots is the hero of this poignant book which will enthrall anyone curious about the lives of our primate cousins **Orangutans and Their**

**Battle for Survival** Leif Cocks,2002 With the arrival of European explorers in Southeast Asia around 300 years ago the orangutan the world's second largest ape and one of our closest biological relatives began a battle for survival As the rainforest was cleared and burnt and the orangutans were poached and sold remnant populations have dwindled to alarmingly small numbers This is the amazing story of how a small Australian zoo offers hope for the orangutans through its very successful captive breeding program The story is told through the eyes and heart of Leif Cocks whose personal encounters with the orangutans in his care have enabled him to provide fascinating insights into their unique intelligence and individual personalities The photographs capture some wonderful moments in the orangutan enclosures at the zoo
