Ordeal Of Integration:

The Ordeal Of Integration Orlando Patterson, 1998-10-14 For many years Orlando Patterson has been a major contributor to the public discussion of race in America In this eagerly anticipated new volume the author of the National Book Award winner *Freedom in the Making of Western Culture* presents a comprehensive exploration of contemporary interethnic relations Americans are in the midst of a rejuvenated conversation about race How we talk about race or fail to is one of the central themes of this book which is certain to spark lively debate among intellectuals and policy advocates Unflinching in his analysis Patterson chides professional race advocates the mainstream media and his fellow academics for homogenizing the 33 million Americans of African ancestry into a single group beset by crises and intractable dilemmas His willingness to challenge the received wisdom of conservatives liberals and genetic determinists alike affords us the opportunity to critically examine our own preconceived notions and prejudices An experienced policy advisor Patterson brings to the national discussion a lifetime of study of slavery freedom and ethnic inequality worldwide His practical recommendations emphasize solutions to problems too often described as unsolvable For the one fourth of the Afro American population at the bottom rung of the socioeconomic ladder his suggestions include housing vouchers limiting the influx of low skilled immigrants and instituting a highly original policy to reduce teenage childbearing He remains firmly committed to school desegregation supports intermarriage as a means of promoting full integration and takes American religious leaders to task for the scandal of segregation within their churches Responding to widespread antagonism toward affirmative action Patterson advocates retaining it for another fifteen years eventually replacing it with a class based policy Standing as a challenge to those who insist on dwelling on the failures of race relations *The Ordeal of Integration* admonishes Americans to stop exaggerating the intractability of persistent ethnic problems and start focusing on what works *Pursuing Equal Opportunities* Lesley A. Jacobs, 2004 This book offers original and innovative contributions to the debate about equality of opportunity The first part sets out a theory of equality of opportunity that presents equal opportunities as a normative device for the regulation of competition for scarce resources The second part shifts the focus to the consideration of the practical application by courts or legislatures or public policy makers of policies for addressing racial class or gender injustices The author examines standardized tests affirmative action workfare universal health care comparable worth and the economic consequences of divorce *More Than Equals* Spencer Perkins, Chris Rice, 2021-06-08 Telling the stories of Spencer Perkins and Chris Rice as they served together in an intentionally multiracial ministry this landmark book offers an example of how racial reconciliation is possible and also critical to Christian discipleship With biblical grounding hopeful realism and practical detail this new edition is now available as part of the IVP Signature Collection *Turning Back* Stephen Steinberg, 2001-01-16 Winner of the ASA Oliver Cox Award for Anti Racist Scholarship From the author of *The Ethnic Myth* comes this cogent analysis of how social science has placed a liberal gloss on racism and failed to champion civil rights From

a powerful critique of Gunnar Myrdal's classic *An American Dilemma* to a new epilogue that dismantles the myth of black progress *Turning Back* offers a challenge to liberals as well as conservatives blacks as well as whites who have fueled the current backlash by providing a spurious intellectual cover for gutting affirmative action and other policies designed to advance the cause of racial justice

Pursuing the American Dream Calvin C. Jillson, 2004 Marked by continuity renewal and expansion the image of the Dream Jillson contends has been remarkably constant since well before the American Revolution an image of a nation offering a better chance for prosperity than any other His book reveals how that Dream has motivated our nation's leaders and common citizens to move sometimes grudgingly toward a more open diverse and genuinely competitive society

The Paradox of Freedom David Scott, Orlando Patterson, 2023-04-25 The Paradox of Freedom is an exploration of the life and work of Orlando Patterson probing the relationship between the circumstances of his life from their beginnings in rural Jamaica to the present and the complex development of his intellectual work A novelist and historical sociologist with an orientation toward public engagement Patterson exemplifies one way of being a Jamaican and Black Atlantic intellectual At the generative center of Patterson's work has been a fundamental inquiry into the internal dynamics of slavery as a mode of social and existential domination What is most provocatively significant in his work on slavery is the way it yields a paradoxical insight into the problem of freedom namely that freedom was born existentially and historically from the degradation and parasitic inhumanity of slavery and was as much the creation of the enslaved as of their enslavers The Paradox of Freedom elucidates the pathways by which Patterson has both uncovered the relationship between domination and freedom and engaged intellectually and publicly with the struggles for equality and decolonization among descendants of the enslaved It will be of great interest to students and scholars throughout the humanities and social sciences and to anyone interested in the work of one of the most important public intellectuals of our time

Contemporary Sociological Theory Craig Calhoun, Joseph Gerteis, James Moody, Steven Pfaff, Indermohan Virk, 2012-01-10 This comprehensive collection of contemporary sociological theory is the definitive guide to current perspectives and approaches in the field examining key topics and debates in the field Collects the most representative material available on topics such as symbolic interactionism phenomenology structuralism network theory critical theory feminist theory and the debates over modernity and postmodernity Includes examinations of the work of Foucault Giddens and Bourdieu A new section for this edition opens up the debate on power and inequality Thematically organized

Frederick Douglass Peter C. Myers, 2008 An intellectual portrait of the iconic 19th century slave and abolitionist who took the lead in applying the Founders doctrine of natural rights to the plight of African Americans Reveals how Douglass's vision still guides contemporary liberalism

The Dilemma of Ethnic Identity Chielozona Eze, 2005 Discusses the nature of culture in a global era and explores Alain Locke's ideas and how he anticipated transcultural societies as a means of attaining world peace and order

Murderous Delusions: the Ethics and Metaphysics of Race Lisa J. McLeod, 2000
