Nation In Making:

A Nation in Making Sir Surendranath Banerjea, 1927 **War, Revolution, and Nation-making in Lithuania, 1914-1923** Tomas Balkelis, 2018 In this book Tomas Balkelis explores how the Lithuanian state was created and shaped by the Great War from its onset in 1914 to the last waves of violence in 1923 As the very notion of independent Lithuania was constructed during the war violence is seen as an essential part of the formation of Lithuanian state nation and identity War was much more than simply the historical context in which the tectonic shift from empire to nation state took place It transformed people policies institutions and modes of thought in ways that would continue to shape the nation for decades after the conflict subsided In telling the story of the post WWI conflict in Lithuania War Revolution and Nation Making in Lithuania 1914 1923 focuses on the soldiers and civilians involved in the conflict rather than the strategies and acts of politicians generals or diplomats The volume s two main themes are the impact of military social and cultural mobilizations on the local population and different types of violence that were so characteristic of the region throughout the period The actors in this story are people displaced by war and mobilized for war refugees veterans volunteers peasant conscripts POWs paramilitary fighters and others who took to guns not diplomacy to assert their power This is the story of how their lives were changed by war and how they shaped the society that emerged after war Materializing the Nation Robert J. Foster, 2002-10-24 Foster shows us how seemingly banal activities like making a phone call chewing betel nut watching a Coke commercial may give important insights into the ways in which the nation is constructed materialized or contested Orvar L fgren author of On Holiday A History of Vacationing Why in the current era of globalization does nationality remain an important dimension of personal and collective identities In Materializing the Nation Robert J Foster argues that the contested process of nation making in Papua New Guinea unfolds not only through organized politics but also through mundane engagements with commodities and mass media He offers a thoughtful critique of recent approaches to nationalism and consumption and an ethnographic perspective on constructs of the nation found in official policy documents letters to the editor school textbooks song lyrics advertisements and other materials This volume will appeal to readers interested in the links among nationalism consumption and media in Melanesia and elsewhere **A Nation Among Nations** Thomas Bender, 2006-12-12 An original ambitious and consistently provocative book that should change the way we study and teach American history Eric Foner Columbia University In this major book Thomas Bender recasts the developments central to American history by setting them in a global context and showing both the importance and ordinariness of America s international entanglements over five centuries Bender focuses on five major themes beginning with 1492 and the age of discovery when people everywhere first felt the transforming effects of oceanic trade He asks us to see our Revolution as one of several similar rebellions around the globe and the Civil War as part of a larger history associating the new meaning of nationhood with freedom He also examines the American commitment to empire from Jefferson s presidency to our own time

and makes it clear that America's responses to capitalist industrialization and urbanization were part of a worldwide conversation *Rebirth of a Nation* Jackson Lears, 2009-06-02 An illuminating and authoritative history of America in the years between the Civil War and World War I One of the best books of 2009 The Washington Post The Chicago Tribune and The Pittsburgh Post Gazette Fascinating Engaging Like the best histories it is also a book that speaks to our own time The New York Times Book Review In the half century between the Civil War and World War I dreams of spiritual moral and physical rebirth formed the foundation for the modern United States Inspired by imperial ambition presidents and entrepreneurs from Theodore Roosevelt and Woodrow Wilson to Andrew Carnegie helped usher the nation into the modern era but sometimes the consequences of their actions failed to match the grandeur of their hopes Award winning historian Jackson Lears richly chronicles this momentous period in America years marked by wrenching social conflict and vigorous political debate vividly capturing the roles played by a variety of seekers from Gilded Age mavericks to vaudeville entertainers and from populist farmers and progressive reformers to avant garde artists and writers Illuminating and authoritative *Rebirth of a Nation* brilliantly weaves the remarkable story of this crucial epoch into a masterful work of history Dazzling cultural history smart provocative and gripping It is also a book for our times historically grounded hopeful and filled with humane just and peaceful possibilities The Washington Post The English Nation Percival Meadows, 1916 The Nation , 1893 The Pageant of America: Makers of a new nation, by J.S.
