Music is an expression of feelings of the soul conveyed through the medium of sound But not all sounds are music It might be said that only an organised sound or series of sounds can be called music Thus music is connected to the eternal and constant flow and order of the universe to the laws and rhythms of nature It can also be said that musical order is comparable to the natural order of the universe There are laws of a certain nature in the natural sciences and likewise in music there are structures and procedures or even rules that should be followed to produce beautiful music The International Conference Innovations for
