[Team Building](#) Yaëlle Goudzwaard, 2014-11-11 Team building is a philosophy of job design in which employees are viewed as members of interdependent teams instead of as individual workers. Team building which is correctly spelled with two words citation needed refers to a wide range of activities presented to businesses, schools, sports teams, religious or nonprofit organizations designed for improving team performance. According to Dyer in 2007 team building was originally a group process intervention aimed at improving interpersonal relations and social interactions and has developed to include achieving results, meeting goals and accomplishing tasks. Team building is pursued via a variety of practices and can range from simple bonding exercises to complex simulations and multi day team building retreats designed to develop a team including group assessment and group dynamic games usually falling somewhere in between. It generally sits within the theory and practice of organizational development but can also be applied to sports teams, school groups and other contexts.
