## **2026 Guide Digital Literacy:**

*The Radical Case for Teaching Skim Reading in First-Year Writing* Ellen C. Carillo, 2025-10-15 *The Radical Case for Teaching Skim Reading in First Year Writing* encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies *The Radical Case for Teaching Skim Reading in First Year Writing* argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources

**Advancing Innovative Cybersecurity Solutions and Approaches to Protect Digital Ecosystems** Jabu Mtsweni, Modimowabarwa Kanyane, Jackie Phahlamohlaka, Willard Munyoka, Kerry-Lynn Thomson, Lynn Fitcher, Joey Jansen van Vuuren, 2026-01-03 This book constitutes the proceedings of the First IFIP TC 9 TC 11 International Cybersecurity Conference IFIP UNIVEN CSIR ICC 2025 held in Tshwane South Africa in December 2025 The 17 full papers included in the proceedings were carefully reviewed and selected from 43 submissions They were organized in topical sections as follows Security in Emerging and Advanced Technologies AI ML and Blockchain Cybersecurity Governance Policy and National Strategies Cybersecurity Education Training and Human Factors Security Architectures Models and Authentication Mechanisms **Global Perspectives on Digital Governance and National Transformation** Akman, Elvettin, Akman, Çiğdem, 2025-12-11 Countries worldwide leverage technology to reshape institutions economies and public services As digital infrastructures expand and data driven decision making becomes central to governance nations face both opportunities and challenges in ensuring transparency inclusion and security Examining these diverse approaches highlights the ways digital strategies can accelerate development strengthen state capacity and redefine the relationship between governments and citizens Understanding these global trends is essential for navigating the future of governance in an interconnected digital landscape *Global Perspectives on Digital Governance and National Transformation* explores how countries design and implement digital governance strategies to drive national development and institutional transformation It examines the
