This paper described the journey the authors took as teacher educators to improve their practice in digital literacy. The focus of the journey was to document the how to of the development and integration of digital literacy into courses and the method was collaborative self study. The sources of data were ongoing technology training i.e. training wiki and recordings integration of digital literacy into courses i.e. applications of readings and training and collaborations and co reflections on the entire process i.e. phone conversations video conferencing and email.
