Emotional Intelligence at Work Dalip Singh,2006-11-14 According to EQ proponents emotional intelligence is an important part of one's capacity for professional success. This guide for business people introduces the concept of EQ and explains how emotional skills can be learned. A self test for measuring EQ is found at the back of the volume **Emotional Intelligence** Rajagopalan Purushothaman,2024-11-29. In the digital world, the significance of emotional intelligence (EI) will gain further importance as technologies such as artificial intelligence (AI) and automation partly or fully replace human intervention. Humans will be valued by their unique characteristics and skills in the digital world. There is no doubt that EI is one of the differentiating future competencies in industry 4.0. The book helps in understanding Each component of EI along with its meaning, significance and application in our professional and personal lives. It talks about the five main elements of EI namely self awareness, self regulation, self motivation, empathy and social skills that allow us to escape from the ordinary. The necessary foundation for building EI is based on the three main components of mindfulness, resilience and compassion which are also discussed in the book. It further provides steps for driving with EI and is filled with EI self assessment tools and exercises. Emotional intelligence shares the recipe for lifelong health, good relationships, professional and personal success and happiness.
