*The Myth of the Noble Savage* Ter Ellingson,2001-01-16 In this important and original study the myth of the Noble Savage is an altogether different myth from the one defended or debunked by others over the years That the concept of the Noble Savage was first invented by Rousseau in the mid eighteenth century in order to glorify the natural life is easily refuted The myth that persists is that there was ever at any time widespread belief in the nobility of savages The fact is as Ter Ellingson shows the humanist eighteenth century actually avoided the term because of its association with the feudalist colonialist mentality that had spawned it 150 years earlier The Noble Savage reappeared in the mid nineteenth century however when the myth was deliberately used to fuel anthropology's oldest and most successful hoax Ellingson's narrative follows the career of anthropologist John Crawfurd whose political ambition and racist agenda were well served by his construction of what was manifestly a myth of savage nobility Generations of anthropologists have accepted the existence of the myth as fact and Ellingson makes clear the extent to which the misdirection implicit in this circumstance can enter into struggles over human rights and racial equality His examination of the myth's influence in the late twentieth century ranging from the World Wide Web to anthropological debates and political confrontations rounds out this fascinating study

**The Myth of the Noble Savage** ,2001 Ellingson's narrative follows the career of anthropologist John Crawfurd whose political ambition and racist agenda were well served by his construction of what was manifestly a myth of savage nobility Generations of anthropologists have accepted the existence of the myth as fact and Ellingson makes clear the extent to which the misdirection implicit in this circumstance can enter into struggles over human rights and racial equality

**Arguing with Anthropology** Karen Margaret Sykes,2005 Arguing with Anthropology is a fresh and wholly original guide to key elements in anthropology which teaches the ability to think write and argue critically Using the classic question of the gift as a master issue for discussion and drawing on a rich variety of Pacific and global ethnography it provides a unique course in methods aims knowledge and understanding The book's highly original hypothetical approach takes gift theory the science of obligation and reciprocity as the paradigm for a virtual enquiry which

*The Representation of the Savage in James Fenimore Cooper and Herman Melville* Anna Krauthammer,2008 Since the seventeenth century ethnicity has been the central issue in the American search for a national identity The articulation of this issue can clearly be seen in the representation of non white others in the literature of the nineteenth century specifically in the works of James Fenimore Cooper and Herman Melville This book examines how both Cooper and Melville manipulated literary images of Native Americans African Americans and other non Europeans thus revealing how America created the image of the savage by which it was alternately attracted and repulsed as a way of defining its own identity

**Alterity and Narrative** Kathleen Glenister Roberts,2012-02-01 Drawing from the fields of rhetoric cultural studies literature and folkloristics Kathleen Glenister Roberts argues that identity and the history of alterity in the West can be understood more clearly through narrative motifs She provides analyses of these motifs including infanticide universalism the Tower of Babel the warrior Other the noble savage entropology and the trickster With current intellectual conflict as its subtext this book posits that identity is always negotiated toward Otherness Roberts interrogates narrative constructions of Western biases toward non Western Others with each chapter addressing a Western historical moment through an exemplary narrative This process shows that by imagining and objectifying Others Western cultures were creating their own Selves In confronting the ethnocentrism of past historical moments Roberts invites us to recognize it in the present in a new way Alterity and Narrative asks that we afford Others the ability to transcend their own ethnocentrism and therefore avoid well meaning but naive calls for cultural sensitivity

English Language and Literature Studies Literature grade 2 5 University of Göttingen course Literature of New Zealand language English abstract Title The Concept of the Noble Ignoble Savage in 20th Century New World Novels Maurice Shadbolt's *Season Of The Jew* and Michael Blake's *Dances With Wolves* Confrontation of civilized Europeans with foreign primitive peoples has mostly been disadvantageous for the latter. The easiest way to deal with the strangeness of indigenous people was to regard them in a stereotypical way. Stereotypes such as the noble and the ignoble savage were used to deprive such cultures of their humanity and to justify colonization and genocide. These stereotypes also found their way into European literature. In this work I will analyze how the authors Maurice Shadbolt and Michael Blake deal with such stereotypes in their novels *Season Of The Jew* and *Dances With Wolves* respectively. I chose to compare these novels because they have many similarities but on the other hand also enough differences to make them an interesting comparison. Both novels are considered to be historical novels but there are some differences in the dealing with stereotypes which I consider to be an important aspect of historical novels in general. Firstly I will draw an outline of the history of the terms noble and ignoble savage and then make a concise definition of the terms. The next step will be a short book portrait of both novels in order to compare them to each other. In the main part of this work I will analyze how the concepts of the noble savage and the ignoble savage are dealt with in both novels. This will be done in consideration of various aspects which before have been presented in the definition of the terms. Extract from the main text: d. Behaviour And Further Criteria One thing which astonished many European travellers was the missing idea of property among indigenous people.
