## **Nordic Historical National Accounts Proceedings:**

*Nordic Historical National Accounts* Guðmundur Jónsson, 2003 The articles gathered in this volume were originally delivered as lectures at a two day workshop on Nordic historical national accounting jointly held by the Institute of History and the Economic Institute at the University of Iceland in Reykjavik in 2003. Nordic Historical National Accounts contains 13 articles on both the broader questions of the historical national accounting approach and case studies on economic growth and its components in addition to methodological issues. The articles are written by the following 15 economic historians and economists: Jan Pieter Smits, Niels Kaergard, Ola Grytten, Peter Vikstrom, Jari Kauppilla, Elisabeth Bjorsvik, Johanna and Seppo Varjonen, Carl Axel Nilsson, Magnus Lindmark, Sveinn Agnarsson, Guðmundur Jonsson, Ragnar Arnason, Jukka Jalava and Pirkko Aulin Ahmavaara.

## **Structural Analysis and the Process of Economic Development** Jonas Ljungberg, 2016-05-05

Economic development is full of discontinuities. Mainstream economists perceive these as external disturbances to a natural state of equilibrium but this book argues that much of the discontinuities are part of economic development suggesting that patterns can be understood with structural analysis. *Structural Analysis and the Process of Economic Development* presents a detailed analysis of the trajectory of Swedish economic change since the nineteenth century. The emergence of structural analysis in economic research is reviewed as well as a chapter devoted to development blocks, a key concept that was outlined in the 1940s and that has much in common with the more recent notions of techno-economic paradigms and general purpose technologies. Structural analysis and the major contributions by Schén are introduced in this book. Also highlighted is Sweden's integration into the international economy via the nineteenth century capital markets along with structural analysis as a tool for understanding climate change. The recent technique of wavelet analysis and its potential for structural analysis is demonstrated in a non technical chapter. This book is suitable for those who are interested in and study political economy, economic history and European history.

## **Exploring Economic Growth**

Sakari Heikkinen, J. L. van Zanden, 2004 The quest for economic growth has been one of the great global issues since the Second World War. Indeed economic growth has also been one of the great themes of the discipline of economic history. The processes and causes of modern economic growth, using the title of Simon Kuznets famous book, have puzzled economic historians for at least the last half a century and they still do as this collection of essays shows. Over the past 50 years historical national accounting has become a major tool of economic historians for analyzing the process of economic growth overall. The construction and application of historical national accounts has been one of the most dynamic branches of economic history. This volume contains a series of articles by members of the international network that has in the past quarter of a century continued and elaborated upon the research program that emerged as a result of the ground breaking research by Clark, Kuznets, Solow and Swan. In the 1980s the network became rather well organized for example as a result of the stimulating influence of Angus Maddison and his colleagues at Groningen University which resulted in series of

workshops and conferences as well as sessions at several international economic history congresses Milan 1994 Madrid 1998 Buenos Aires 2002 The aim of this volume is to evaluate the current state of the field present new findings and analytical tools and to reevaluate the research agenda of the network **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur**, 2004

**Government versus Markets** Vito Tanzi, 2011-05-16 Vito Tanzi offers a truly comprehensive treatment of the economic role of the state in the twentieth and twenty first centuries from a historical and world perspective The book addresses the fundamental question of what governments should do or have attempted to do in economic activities in past and recent periods It also speculates on what they are likely or may be forced to do in future years The investigation assembles a large set of statistical information that should prove useful to policy makers and scholars in the perennial discussion of government's optimal economic roles It will become an essential reference work on the analytical borders between the market and the state and on what a reasonable exit strategy from the current fiscal crises should be

Ritaskrá Háskóla Íslands, 2004 **The Economic Development of Europe's Regions** Joan Ramón Rosés, Nikolaus Wolf, 2018-11-06 This book is the first quantitative description of Europe's economic development at a regional level over the entire twentieth century Based on a new and comprehensive set of data it brings together a group of leading economic historians in order to describe and analyze the development of European regions both for nation states and for Europe as a whole This provides a new transnational perspective on Europe's quantitative development offering for the first time a systematic long run analysis of national policies independent from the use of national statistical units The new transnational dimension of data allows for the analysis of national policies in a more thorough way than ever before The book provides a comprehensive database at the level of modern NUTS 2 regions for the period 1900-2010 in 10 year intervals and a panoramic view of economic development both below and above the national level It will be of great interest to economic historians economic geographers development economists and those with an interest in economic growth The Proceedings of the ...
