*Re-envisioning the Everyday* John Fagg, 2023-10-03 Often seen as backward looking and convention bound genre painting representing scenes of everyday life was central to the work of twentieth century artists such as John Sloan Norman Rockwell Jacob Lawrence who adapted such subjects to an era of rapid urbanization mass media and modernist art *Re-envisioning the Everyday* asks what their works do to the tradition of genre painting and whether it remains a meaningful category through which to understand them Working with and against the established narrative of American genre painting's late nineteenth century decline into obsolescence John Fagg explores how artists and illustrators used elements of the tradition to picture everyday life in a rapidly changing society whether by

appealing to its nostalgic and historical connotations or by updating it to address new formal and thematic concerns Fagg argues that genre painting enabled twentieth century artists to look slowly and carefully at scenes of everyday life and on some occasions to understand those scenes as sites of political oppression and resistance But it also limited them to anachronistic ways of seeing and tied them to a freighted history of stereotyping and condescension By surveying genre painting when its status and relevance were uncertain and by looking at works that stretch and complicate its boundaries this book considers what the form is and probes the wider practice of generic categorization It will appeal to students and scholars of American art history art criticism and cultural studies
